# THURSDAY, DECEMBER 3 | DAY 1

SESSION DESCRIPTIONS

Infinite Campus

STEP INTO A WORLD OF DISCOVERY
KENTUCKY INTERCHANGE 2026

## 9:10-10:10 AM | SESSION 1

COMMONWEALTH 1

### Federal Programs: What You Need to Know

Margalee Conlee, KDE

Gain clarity on data collection and reporting requirements for key programs such as English Learners (EL), Immigrant, Homeless, Migrant and Title I, Part A. Learn how to stay compliant and organized using available reports and timelines.

COMMONWEALTH 2

### Chronic Absenteeism and Accountability System

Shara Savage, Jessi Carlton, & Josh Whitlow, KDE

This session will explain the chronic absenteeism calculation used in Kentucky's accountability system, including reports to identify chronically absent students and how absenteeism rates impact district ratings.

COMMONWEALTH 3

### Academic Planning: Graduation Program Setup

Tony Spengel, Infinite Campus

This session will cover the steps to build graduation programs in your site. Examples of Graduation Programs will include State Minimum Requirements for Graduation as well as more localized requirements of a district. Tools covered will include: setting Credit Requirements, adding additional program criteria such as Course or Test Requirements, and building course plan templates. Audience: Users with a good understanding of credit types and course setup.

COMMONWEALTH 4

### Beginning Ad Hoc

Hanna Sturm, Infinite Campus

This introductory session walks through the basics of building and running a custom report using the most common Ad Hoc Reporting tool, the Filter Designer. You will learn how to choose the right report type, find and add fields, apply simple filters, and export your results. Watch or follow along as we build a report live, explore tips for finding correct fields, and share your work with others. Audience: Users with zero to minimal experience using the Filter Designer tool.

COMMONWEALTH 5

### Master Scheduling Overview

Olivia Soholt, Infinite Campus

Learn how the pieces of Master Scheduling fit together in Infinite Campus. This introductory session provides a high-level overview of the scheduling process, including timeline considerations, manual versus auto-building tools, elementary and secondary scheduling options, a breakdown of Scheduling Parts 1-4, and available support resources. Note: This session is designed as an overview and is not intended to be a formal, in-depth training.

COMMONWEALTH 6

### Responsive Scheduling

Chris Silvis, Infinite Campus

Learn what responsive scheduling can do for your school, including some basics of setup and potential use case scenarios.

COMMONWEALTH 7

### Custom Forms Setup

Shelby Millner, Infinite Campus

This session covers how to upload, configure, and manage Custom Forms in Infinite Campus to support district documentation needs. Participants will explore three form types (blank, interactive, and interactive with a database table) and learn how forms can pull information from Campus and make entered data available for Ad Hoc reporting.

COMMONWEALTH 8

### Elementary Scheduling

Jennifer Winburn, Fayette County Public Schools

Most Campus users think the Scheduling Board is only for the secondary level. That is not true! During this session, you'll learn how to use the tools to generate class rosters and then populate the rest of the schedule.

BUTCHERTOWN

### Campus Online Registration: Open Enrollment Setup

Caitlin Catalano, Infinite Campus

This session will walk through setting up an Open Enrollment application and accompanying templates. While we will overview the process, we will only focus on the setup of Open Enrollment for this portion. Audience: Users should have experience with OLR.

CHEROKEE TRIANGLE

### Campus Online Registration: Customizations

Molly Stowers, Infinite Campus

This session covers the OLR Builder, OLR Literals Bank, and OLR Lists Bank and how they are used to create and maintain district-specific customizations within Online Registration configurations. Participants will learn how to use these tools to collect district-specific data, support annual registration updates, and ensure districts gather the information needed to successfully begin each school year while providing a positive registration experience for families.

CLIFTON

### Demo: BTAM

Shavon McKenney, K-12 Solutions Group

Learn how BTAM helps schools proactively identify and manage behavioral threats using a secure, collaborative platform integrated with Infinite Campus. This session will show you how to streamline documentation, improve team coordination, and gain insights through built-in analytics and reporting tools.

GERMANTOWN

### Census Household Cleanup

Sunny Collins, Erlanger Elsmere Independent School District

Learn how to access and use data validation reporting tools to monitor the health of Census data in your Infinite Campus site. This session will help you catch common data issues early and ensure your foundational records are clean and reliable.

HILLERICH

### Demo: CCS Backpack/CCS TeacherTime/ CCS Lingo/CCS DataViz

Bill Dwyer, CCS

See how you can make Infinite Campus host Tableau, show custom PDFs on the portal, translate your documents, or schedule Parent/Teacher conferences.

OLD LOUISVILLE

### Campus Online Registration: Enhancing Existing Experience

Jay Jones, Oldham County School District; Michelle Champion, McCracken County School District; & Rex Hanson, Elizabethtown Independent School District

Are you using Online Registration to the fullest potential? Come see how Elizabethtown Independent, McCracken County, and Oldham County have expanded their use of OLR, and leave with practical ideas to strengthen registration in your own district.

©2026 Infinite Campus, Inc. All rights reserved.

# 10:25-11:25 AM | SESSION 2

COMMONWEALTH 1

## Have You Ever Wondered Where SAAR Numbers Come From?

Ronda Devine & Laura Loman, KDE

Come learn the ins and outs of the Superintendent's Annual Attendance Report. Learn how to properly identify Low Attendance days or weather days, and see the data they represent. The presentation will detail all adjustments and show how to track those adjustments on the report.

COMMONWEALTH 2

## HB 307: New Infinite Campus Collections for Proactive Admissions

Crystal Darnell, KDE

This session will explain new Infinite Campus collections required to support HB 307's Proactive Postsecondary Admissions Program and ensure FERPA-compliant reporting of student information to Kentucky universities.

COMMONWEALTH 3

## Academic Planning: Academic Program Setup

Camille Erickson, Infinite Campus

This session will cover the steps to build an academic plan in your site, including building a course plan, creating program criteria, and adding certification criteria. Audience: Users with some Academic Planning experience, users with a good understanding of credit types and course setup.

COMMONWEALTH 4

## Intermediate Ad Hoc

Hanna Sturm, Infinite Campus

This session will go deeper into the Ad Hoc Reporting tools. Within the Filter Designer, you will explore advanced filter logic, build more complex field combinations, and fine tune the output for real-world use cases. The Data Viewer will also be covered. Watch or follow along and gain strategies to get more precise data from your reports. Audience: Users with some experience creating basic reports in Ad Hoc. Users should be able to find basic data fields within the Filter Designer but have little or no experience filtering, formatting, or grouping.

COMMONWEALTH 5

## Calendar Setup & Roll Forward

Lunden Meyer, Infinite Campus

Learn how to create new calendars and roll forward existing ones. Review key calendar configuration tools, including Schedule Structures, Terms, Periods, and Day Setup, to prepare for the yearly scheduling process.

COMMONWEALTH 6

## Course Clean Up and Requests

Olivia Soholt, Infinite Campus

This session provides an overview of the course registration process, including maintaining Course Information Fields, entering student course requests via Requests & Rosters, and enabling course requests within the student portal to support a smooth registration experience.

COMMONWEALTH 7

## Manual Student Scheduling

Molly Stowers, Infinite Campus

This session focuses on manually scheduling students using the Walk-In Scheduler and Requests & Rosters tools. Participants will learn how each tool supports the scheduling process, from building individual student schedules to managing roster placement. This provides districts with a sustainable approach to handling schedule changes, ensuring students are placed in the correct sections, and maintaining accurate schedules throughout the school year.

COMMONWEALTH 8

## Building a Master Schedule

Martha Raid, Infinite Campus

This session walks through key workflows and tools in Infinite Campus to streamline the master scheduling process and resolve course placement challenges efficiently. Participants will learn how to build balanced, effective schedules, in the Scheduling Board, that accommodate diverse student needs and ensure a smooth start to the academic term.

BUTCHERTOWN

## Campus Online Registration: Open Enrollment Processing

Shelby Millner, Infinite Campus

This session will provide an overview of how to manage Open Enrollment in Infinite Campus, from application processing to final student enrollment. We'll walk through processing applications, setting seat counts, running enrollment lotteries, making offers, managing waitlists, and enrolling students. Participants will see how each step fits into the overall process and how Infinite Campus supports the management of Open Enrollment.

CHEROKEE TRIANGLE

## Campus Online Registration: Additional Tools & Translations

Kristi Koscianski, Infinite Campus

This session covers the following: mapping custom fields, notifications, statuses and letters, translations, document uploads, list bank replacer, mapping health conditions and updating the receipt. Learn how to maximize all of the OLR tools to ensure a successful online registration process.

CLIFTON

## Demo: Campus Learning Suite

Alex Ramirez, Infinite Campus

Explore how Infinite Campus LMS tools support digital learning, individualized assignments, and student well-being check-ins. This session will help you use analytics and classroom tools to create a more engaging and responsive learning environment.

GERMANTOWN

## Data Records Transfers

Sunny Collins, Erlanger Elsmere Independent School District

Discover tips and tricks for managing student records transfers efficiently and accurately. This session includes an open discussion and Q&A to help you address common challenges and improve your workflow.

HILLERICH

## Demo: MTSS

Shavon McKenney, K-12 Solutions Group

Explore how the MTSS tool helps schools track interventions, monitor progress, and manage support plans for students across academic, behavioral, and social domains. This session will show you how to use dashboards, reports, and collaborative features to streamline documentation and improve student outcomes.

OLD LOUISVILLE

## Custom Forms End User

Brittani Wright, Infinite Campus

Learn how to assign and report on custom forms for individual students or large groups. This session will help you streamline workflows and improve data collection using forms tailored to your district's needs.

©2026 Infinite Campus, Inc. All rights reserved.

# 12:40-1:40 PM | SESSION 3

COMMONWEALTH 1

## School Safety Data Collection & Reporting

Blake Konny & Windy Spalding, KDE

Understand the latest requirements for entering and reporting student behavior data, including legal sanctions and compliance expectations. This session emphasizes the importance of accurate data and offers guidance to ensure your reporting meets all standards.

COMMONWEALTH 2

## KTS Data Exchange for High School Schedulers

Sarah Kiper, KDE

Attention high school counselors and principals - this session will help you understand how to set up courses in Infinite Campus for the syncing of KTS Data Exchange data.

COMMONWEALTH 3

## Academic Planning: Program End User

Brittani Wright, Infinite Campus

Learn how to assign Academic Plans to students, manage their course plans, and monitor their progress. Learn the workflow for involving teachers, parents, and/or students in course recommendations & requests throughout the scheduling process.

COMMONWEALTH 4

## Advanced Ad Hoc

Caitlin Catalano, Infinite Campus

This session will cover more in-depth uses of Ad Hoc, such as integrating functions and different types of filters, logical expressions, and grouping or aggregating to customize your Ad Hocs. Time permitting, we will also dive into Custom URL tools with Ad Hocs, Pivot Designer and the existing Grades Analysis Report for KY. Audience: Users should have built and utilized Ad Hocs, and have comfort with finding fields and setting basic filters.

COMMONWEALTH 5

## Beginning Ad Hoc

Hanna Sturm, Infinite Campus

This introductory session walks through the basics of building and running a custom report using the most common Ad Hoc Reporting tool, the Filter Designer. You will learn how to choose the right report type, find and add fields, apply simple filters, and export your results. Watch or follow along as we build a report live, explore tips for finding correct fields, and share your work with others. Audience: Users with zero to minimal experience using the Filter Designer tool.

COMMONWEALTH 6

## Course Clean Up and Requests

Olivia Soholt, Infinite Campus

This session provides an overview of the course registration process, including maintaining Course Information Fields, entering student course requests via Requests & Rosters, and enabling course requests within the student portal to support a smooth registration experience.

COMMONWEALTH 7

## Loading a Master Schedule

Lunden Meyer, Infinite Campus

This session explores the tools and processes used to roster students into courses using the Scheduling Board. Participants will learn how to leverage the Scheduling Board, Auto-Loading options, and Section Balance tools to create balanced schedules, while examining different loading methods to meet the unique scheduling needs of their schools and districts.

COMMONWEALTH 8

## Academic Planning: Academic Program Setup

Camille Erickson, Infinite Campus

This session will cover the steps to build an academic plan in your site, including building a course plan, creating program criteria, and adding certification criteria. Audience: Users with some Academic Planning experience, users with a good understanding of credit types and course setup.

BUTCHERTOWN

## Campus Online Registration: Customizations

Molly Stowers, Infinite Campus

This session covers the OLR Builder, OLR Literals Bank, and OLR Lists Bank and how they are used to create and maintain district-specific customizations within Online Registration configurations. Participants will learn how to use these tools to collect district-specific data, support annual registration updates, and ensure districts gather the information needed to successfully begin each school year while providing a positive registration experience for families.

CHEROKEE TRIANGLE

## Campus Online Registration: Processing Applications

Kristi Koscianski, Infinite Campus

The session walks through the application processing, student processing and health processing steps of OLR. Participants will learn how to approve applications as well as run various OLR reports that can be helpful to determine families who haven't completed OLR, kids who still need enrollments, etc.

CLIFTON

## Demo: 504 Module

Shavon McKenney, K-12 Solutions Group

Explore how the fully integrated 504 Module helps districts streamline plan creation, meeting management, and compliance tracking. This session will show you how to use dashboards, electronic forms, and automated reporting to simplify workflows and ensure consistency across your 504's.

GERMANTOWN

## Customizing Campus

Chris Silvis, Infinite Campus

Explore how you can use custom tabs, categories and tools to record and communicate useful information with staff.

HILLERICH

## Demo: Campus Payments

Alex Ramirez, Infinite Campus

Explore an all-in-one payments solution integrated with Infinite Campus. This session will show how parents, students, or staff can select spirit wear, purchase school supplies, pay for activity fees, make donations, and much more from one online location.

OLD LOUISVILLE

## Census Household Cleanup

Sunny Collins, Erlanger Elsmere Independent School District

Learn how to access and use data validation reporting tools to monitor the health of Census data in your Infinite Campus site. This session will help you catch common data issues early and ensure your foundational records are clean and reliable.

©2026 Infinite Campus, Inc. All rights reserved.

# 1:55-2:55 PM | SESSION 4

COMMONWEALTH 1

## Data & Money: An Overview of Data Points that Generate Funding

Ronda Devine & Laura Loman, KDE

This session will provide an overview of the data points in infinite Campus that generate funding. A quick review of free/reduced lunch processing, general and virtual attendance and the annual DASCR check that feeds into KDE's Open House will be included.

COMMONWEALTH 2

## Beyond Compliance: Mapping Connection with Infinite Campus Data Tools

Christina Watford & Lisa Henry, KDE

For many students, data points are the first silent markers of a fading sense of belonging. This session invites leaders to discover how the Infinite Campus Early Warning Tool and Insights Data Visualizations can turn everyday attendance, behavior, course performance, and stability indicators into catalysts for deeper conversations. Instead of just tracking numbers, you will learn how to use these free tools to spark proactive, targeted outreach and build the authentic human connections that keep Kentucky students engaged and on the path to graduation.

COMMONWEALTH 3

## Manual Student Scheduling

Molly Stowers, Infinite Campus

This session focuses on manually scheduling students using the Walk-In Scheduler and Requests & Rosters tools. Participants will learn how each tool supports the scheduling process, from building individual student schedules to managing roster placement. This provides districts with a sustainable approach to handling schedule changes, ensuring students are placed in the correct sections, and maintaining accurate schedules throughout the school year.

COMMONWEALTH 4

## Building a Master Schedule

Martha Raid, Infinite Campus

This session walks through key workflows and tools in Infinite Campus to streamline the master scheduling process and resolve course placement challenges efficiently. Participants will learn how to build balanced, effective schedules, in the Scheduling Board, that accommodate diverse student needs and ensure a smooth start to the academic term.

COMMONWEALTH 5

## Intermediate Ad Hoc

Hanna Sturm, Infinite Campus

This session will go deeper into the Ad Hoc Reporting tools. Within the Filter Designer, you will explore advanced filter logic, build more complex field combinations, and fine tune the output for real-world use cases. The Data Viewer will also be covered. Watch or follow along and gain strategies to get more precise data from your reports. Audience: Users with some experience creating basic reports in Ad Hoc. Users should be able to find basic data fields within the Filter Designer but have little or no experience filtering, formatting, or grouping.

COMMONWEALTH 6

## Data Records Transfers

Sunny Collins, Erlanger Elsmere Independent School District

Discover tips and tricks for managing student records transfers efficiently and accurately. This session includes an open discussion and Q&A to help you address common challenges and improve your workflow.

COMMONWEALTH 7

## Responsive Scheduling

Chris Silvis, Infinite Campus

Learn what responsive scheduling can do for your school, including some basics of setup and potential use case scenarios.

COMMONWEALTH 8

## Academic Planning: Graduation Program Setup

Tony Spengel, Infinite Campus

This session will cover the steps to build graduation programs in your site. Examples of Graduation Programs will include State Minimum Requirements for Graduation as well as more localized requirements of a district. Tools covered will include: setting Credit Requirements, adding additional program criteria such as Course or Test Requirements, and building course plan templates. Audience: Users with a good understanding of credit types and course setup.

BUTCHERTOWN

## Campus Online Registration: Additional Tools & Translations

Kristi Koscianski, Infinite Campus

This session covers the following: mapping custom fields, notifications, statuses and letters, translations, document uploads, list bank replacer, mapping health conditions and updating the receipt. Learn how to maximize all of the OLR tools to ensure a successful online registration process.

CHEROKEE TRIANGLE

## Campus Online Registration: Open Enrollment Setup

Caitlin Catalano, Infinite Campus

This session will walk through setting up an Open Enrollment application and accompanying templates. While we will overview the process, we will only focus on the setup of Open Enrollment for this portion. Audience: Users should have experience with OLR.

CLIFTON

## Demo: CCS Backpack/CCS TeacherTime/CCS Lingo/CCS DataViz

Bill Dwyer, CCS

See how you can make Infinite Campus host Tableau, show custom PDFs on the portal, translate your documents, or schedule Parent/Teacher conferences.

GERMANTOWN

## Campus Online Registration: Enhancing Existing Experience

Jay Jones, Oldham County School District; Michelle Champion, McCracken County School District; & Rex Hanson, Elizabethtown Independent School District

Are you using Online Registration to the fullest potential? Come see how Elizabethtown Independent, McCracken County, and Oldham County have expanded their use of OLR, and leave with practical ideas to strengthen registration in your own district.

HILLERICH

## Demo: Campus Workflow Suite

Alex Ramirez, Infinite Campus

Explore modern tools like Advanced Attendance, Events & Actions, and Hall Pass to streamline daily operations and improve efficiency. This session will show you how automation and smart workflows can save time and enhance communication across your school.

OLD LOUISVILLE

## Custom Forms End User

Brittani Wright, Infinite Campus

Learn how to assign and report on custom forms for individual students or large groups. This session will help you streamline workflows and improve data collection using forms tailored to your district's needs.

©2026 Infinite Campus, Inc. All rights reserved.

# 3:10-4:10 PM | SESSION 5

COMMONWEALTH 1

## Quality Assurance: Best Practices to Maximize the Quality of Your Data

Crystal Darnell, Dan Bradley, & Lesley Mathis, KDE

This session highlights essential quality assurance best practices to ensure your data is accurate, consistent, and trustworthy. Participants will gain exposure to available tools and reports for validating, cleaning, and maintaining high-quality data to support confident decision-making.

COMMONWEALTH 2

## Are You CRDC Ready?

Ameya Tangellamudi & Robbin Bond, KDE

The Civil Rights Data Collection (CRDC) opens Dec. 8, are you ready? KDE will be populating much of the data, but schools and districts must validate and enter data not available. This session will walk you through the process and timeline of the Civil Rights Data Collection. The session will include time for audience discussion on prior experiences and best practices.

COMMONWEALTH 3

## Customizing Campus

Chris Silvis, Infinite Campus

Explore how you can use custom tabs, categories and tools to record and communicate useful information with staff.

COMMONWEALTH 4

## Loading a Master Schedule

Lunden Meyer, Infinite Campus

This session explores the tools and processes used to roster students into courses using the Scheduling Board. Participants will learn how to leverage the Scheduling Board, Auto-Loading options, and Section Balance tools to create balanced schedules, while examining different loading methods to meet the unique scheduling needs of their schools and districts.

COMMONWEALTH 5

## Advanced Ad Hoc

Caitlin Catalano, Infinite Campus

This session will cover more in-depth uses of Ad Hoc, such as integrating functions and different types of filters, logical expressions, and grouping or aggregating to customize your Ad Hocs. Time permitting, we will also dive into Custom URL tools with Ad Hocs, Pivot Designer and the existing Grades Analysis Report for KY. Audience: Users should have built and utilized Ad Hocs, and have comfort with finding fields and setting basic filters.

COMMONWEALTH 6

## Communication Tools

Tony Spengel, Infinite Campus

This session will cover how staff can use announcements, portal home screen messaging, Messenger 2.0 tools, and Groups to share timely updates across your school or district. The goal is to help SIS administrators streamline communication, improve message visibility, and ensure families and staff stay informed. Audience: Staff who send communication to Students, Contacts, and other Staff through Infinite Campus Tools.

COMMONWEALTH 7

## Elementary Scheduling

Jennifer Winburn, Fayette County Public Schools

Most Campus users think the Scheduling Board is only for the secondary level. That is not true! During this session, you'll learn how to use the tools to generate class rosters and then populate the rest of the schedule.

COMMONWEALTH 8

## Academic Planning: Program End User

Brittani Wright, Infinite Campus

Learn how to assign Academic Plans to students, manage their course plans, and monitor their progress. Learn the workflow for involving teachers, parents, and/or students in course recommendations & requests throughout the scheduling process.

BUTCHERTOWN

## Campus Online Registration: Processing Applications

Kristi Koscianski, Infinite Campus

The session walks through the application processing, student processing and health processing steps of OLR. Participants will learn how to approve applications as well as run various OLR reports that can be helpful to determine families who haven't completed OLR, kids who still need enrollments, etc.

CHEROKEE TRIANGLE

## Campus Online Registration: Open Enrollment Processing

Shelby Millner, Infinite Campus

This session will provide an overview of how to manage Open Enrollment in Infinite Campus, from application processing to final student enrollment. We'll walk through processing applications, setting seat counts, running enrollment lotteries, making offers, managing waitlists, and enrolling students. Participants will see how each step fits into the overall process and how Infinite Campus supports the management of Open Enrollment.

CLIFTON

## Demo: Campus Online Registration Prime

Alex Ramirez, Infinite Campus

Explore how to bring your student enrollment process online to reduce paperwork and eliminate duplicate data entry. This session will show you how to streamline enrollment and improve data accuracy with digital tools.

GERMANTOWN

## Recording Student Behavior

Martha Raid, Infinite Campus

Learn how to seamlessly enter and manage behavior referrals, incidents, and resolutions in Infinite Campus using essential workflows and preferences. Attendees will leave equipped to maintain accurate, consistent student records that streamline administrative follow-up and support timely behavioral interventions.

HILLERICH

## Demo: CheckMate Pro

Shavon McKenney, K-12 Solutions Group

Discover how CheckMate Pro simplifies attendance tracking through a self-service kiosk that integrates directly with Infinite Campus. This session will show you how to save time, reduce data entry, and improve building visibility with real-time check-in/out, guest tracking, and automated behavior referrals.

OLD LOUISVILLE

## SQL Tools in the User Interface

Camille Erickson, Infinite Campus

This session is appropriate for learners who can write a basic SQL query. We will explore tools on the User Side of Infinite Campus that can be used to pull reports. This will include Ad Hoc Pass-through SQL queries, Pivot Designer and the Data Extract Utility.

# FRIDAY, DECEMBER 4 | DAY 2

SESSION DESCRIPTIONS

Infinite Campus

STEP INTO A WORLD OF DISCOVERY
KENTUCKY INTERCHANGE 2026

## 8:30-9:30 AM | SESSION 6

### COMMONWEALTH 1

**Implementing Data-Driven Student Support Systems: Insights & Early Warning**

*(TWO-HOUR SESSION)*

Christina Watford, Lisa Henry, & Ashley Gates, KDE

In this hands-on workshop, discover how to turn Infinite Campus data into a roadmap for student success. This session shows how to use the Early Warning Tool and Insights Data Visualizations to monitor attendance, behavior, grades, and stability factors. Participants will actively engage in an implementation planning session to align academic and well-being services, strengthen support networks, and leave with a concrete plan for proactive student care. Attendees should request access to needed tools before attending.

### COMMONWEALTH 2

**Workshop: SSN Removal Tools**

Lisa Keeter, KDE

Learn how to evaluate the available SSN Removal Tool options for your district. This workshop will help you determine the best approach to reduce the exposure of Social Security numbers and minimize risk in the event of an Infinite Campus data breach.

### COMMONWEALTH 3

**Workshop: Campus Online Registration**

Molly Stowers, Infinite Campus

### COMMONWEALTH 4

**Workshop: Scheduling Prep & Requests**

Brittani Wright, Infinite Campus

### COMMONWEALTH 5

**Workshop: Ad Hoc**

Caitlin Catalano & Camille Erickson, Infinite Campus

### COMMONWEALTH 6

**Workshop: Scheduling Board**

Martha Raid & Lunden Meyer, Infinite Campus

### COMMONWEALTH 7

**Workshop: Academic Planning**

Olivia Soholt, Infinite Campus

### COMMONWEALTH 8

**Workshop: Custom Forms Setup**

Shelby Millner, Infinite Campus

### CHEROKEE TRIANGLE

**Workshop: Open Enrollment**

Kristi Koscianski, Infinite Campus

### CLIFTON

**Demo: K-12 SG Custom Products: What We Have to Make Life Easier**

Shavon McKenney, K-12 Solutions Group

Join us to learn more about K-12 SG's fully integrated custom products that will allow your district to streamline operations and are built to make your life easier. We will show a high-level overview of our custom products such as BTAM, CheckMate, SWARM, 504 Module, MTSS, SpotLight, Binder, SubLink, and MORE!

### GERMANTOWN

**Workshop: Census Cleanup**

Hanna Sturm, Infinite Campus

### OLD LOUISVILLE

**Workshop: Responsive Scheduling**

Chris Silvis, Infinite Campus

# FRIDAY, DECEMBER 4 | DAY 2

SESSION DESCRIPTIONS

Infinite Campus

STEP INTO A WORLD OF DISCOVERY
KENTUCKY INTERCHANGE 2026

## 11:00 AM-12:00 PM | SESSION 8

**COMMONWEALTH 1**

### CTE Dual Credit and Work-Based Learning

Amy Tracy, KDE

This workshop will focus on reviewing dual credit and work-based learning data at your school, using Infinite Campus reports to support data cleanup and checks, with time to work on your data and ask questions.
