

Aussie Broadband nbn®

HFC self installation guide

Getting to know your nbn®

Understanding the lights on your nbn® connection box

Your nbn® connection box has four indicator lights on the front panel and two on the data port (UNI-D1) on the back. During normal operation, the power, downstream, upstream and online lights on the front panel should always be solid green.

● On  Flashing ● Off

Power

Indicates power is available to the box.

Downstream

Indicates downstream connectivity.

Upstream

Indicates upstream connectivity.

Online

Indicates nbn® network connection.

Startup sequence

Power	Power	Power	Power	Power	Power
●	●	●	●	●	●
Downstream	Downstream	Downstream	Downstream	Downstream	Downstream
●			●	●	●
Upstream	Upstream	Upstream	Upstream	Upstream	Upstream
●		●		●	●
