

TANK & SKID ENCLOSURES

PROTECT YOUR TEAM AND EQUIPMENT AGAINST THE ELEMENTS.

Mud and wet weather don't mix. The same goes for extreme cold. Our in-house manufacturing capabilities and an expansive inventory of raw materials result in quick turnaround for cost-saving Industrial Fabric Solutions.

Norseman's Tank and Skid Enclosures protect inert or exotic muds against rainwater contamination and subzero temperatures. The enclosed environment also shelters your people and equipment.

Norseman's Tank and Skid Enclosures are *GEAR2PERFORM*.

NORSEMAN, YOUR ONE-STOP SUPPLIER OF *GEAR2PERFORM*.

-  **On-Demand Supply:** Warehousing space and distribution locations across North America.
-  **Exceptional Service:** One-stop supplier of Fabric, Foam and Film Protective solutions.
-  **Superior Quality:** Manufacturing in North America since 1921.
-  **Extensive Experience:** Our Fiercely Reliable[™] team will find a solution to fit your business.

Contact Norseman or your local Sales Representative to order today.

TANK & SKID ENCLOSURES

SPECIFICATIONS

- Design to build, or modify an existing product.
- In-house designers assist with selecting the best material, hardware and manufacturing methodology to construct your product.
- Materials are selected to perform in whatever weather challenges you face. We use materials that perform from suppliers we trust, including Norseman's proprietary Arctic Hyprene[™] fabric, designed to last for years under the most demanding rig conditions.
- Framework is manufactured from HSS and other steel members that conform to CSA-G420.21 Grade 50W.
- Fabric and frames are available for any size mud tank.
- Fabric walls are independent of the roof for greater flexibility.

DELIVERY & INSTALLATION

- Designed for quick, easy setup and takedown.
- Custom fitted and can remain installed during transport.
- Pin-and-pocket system allows for quick installation without modifications to structures.
