

PORTABLE TEMPORARY DUCTING FOR MILITARY

MILITARY PORTABLE DUCTING SOLUTIONS.

Norseman has designed and fabricated a diverse range of technical fabric protective solutions for the armed forces, allies, the defence industry, commercial OEMs and a host of industrial applications. Our portable ducting gear can be trusted and relied on in the most demanding environments.

From design to product development to manufacture, we're not just duct manufacturers... We're your trusted partners. Call or contact us today and get ready for your **GEAR2PERFORM**.

OUR PROCESS:

5P PRODUCT DEVELOPMENT PROCESS:

- **Produce:** Cost-effective custom protective solutions manufactured from materials we trust.
- **Prototype:** Functional prototypes for pre-production validation and verification.
- **Production:** Coast-to-coast manufacturing capabilities, with in-house integrated ERP technology and cross-border logistic resourcing that result in on-time worry-free delivery.
- **Perform:** Reliable protective solutions that help our customers outwork, outperform and overachieve.
- **People:** We are Fiercely Reliable[™], working side by side with our suppliers partners and customers for 100 years.

NORSEMAN, YOUR ONE-STOP SUPPLIER OF **GEAR2PERFORM**.

-  **On-Demand Supply:** Warehousing space and distribution locations across North America.
-  **Exceptional Service:** One-stop supplier of Fabric, Foam and Film Protective solutions.
-  **Superior Quality:** Manufacturing in North America since 1921.
- Extensive Experience:** Our Fiercely Reliable[™] team will find a solution to fit your business.

Contact Norseman or your local Sales Representative to order today.

PORTABLE TEMPORARY DUCTING FOR MILITARY

OUR PROCESS (CONT):

OUR EXPERTISE:

- Identifying and designing military environmental-control solutions used to circulate air in heating, ventilation and air conditioning (HVAC) systems.
- End-to-end customized ducting solutions that are designed to meet military-specific needs and comply with tight regulations in the defense sector.
- Manufacturing expertise in designing rugged, flexible and versatile ducting solutions that are adaptable to military requirements.
- Access to proprietary materials that maintain functionality when used in harsh environments and under extreme weather conditions, with experience in sourcing materials that are military specified.
- Coast-to-coast manufacturing capabilities servicing customers throughout North America.

CUSTOM SPECIFICATIONS:

- **Fabric:** Custom fabric and custom color combinations are available, from brand-specific colors to Pantone® color-matching fabrics.
- **Insulation:** Non-woven insulation can be added to minimize the heat transfer between the conditioned air inside the ductwork and the ambient air.
- **Wear Strips:** Wear strips add an extra layer of protection from wear and tear and are attached to the outside of the duct during the manufacturing process.
- **Diameter:** We offer ducting from 12" to 24" in diameter.
- **Pitch:** The pitch of the duct refers to the distance between corresponding areas on two loops in the wire. Pitch can vary by application.
- **Finishing:** Ducting ends can be finished with any of our collars: belted-cuff, wire-ring, pin-lock, gear-clamp or our new QuickGrip end collar.

For more information on Norseman protective gear, contact your local Sales Representative.
