SHELTERS AND UTILITY TENTS

SITEPRO W-SERIES HEAVY DUTY TENTS

OUR STRONGEST AND MOST DURABLE TENT.

Construction sites come with high demands. The work is fast paced and continues through unfavorable conditions. Keep your crew working safely and comfortably through harsh weather with Norseman's SitePro W-Series Heavy Duty Tents.

Norseman's SitePro W-Series Heavy Duty Tents are durable welding and utility tents designed for longer-term projects on pipeline and construction sites. The SitePro W-Series is designed to withstand rigorous use, provide a shelter that is quick and easy to set up, and protect workers and equipment from harsh weather conditions.

- Fabricated with 14 oz. high-tear flame-resistant (FR) fabric with cover rated to -49°F (-45°C). Passes FR testing to NFPA 701.
- Frames are made from square 1" and 1.25" (12' x 12' only) galvanized tubing, which is lightweight and rust resistant.
- Vents in the front and back peaks allow for air circulation and welding fumes to escape, creating a safer work environment.
- Readily transported by a crane, fully assembled, using hooks placed on both ends at the top of the tent.
- Able to withstand high wind and snow loads when anchored to the ground.
- Frame collapses for easy transportation and storage.
- Quick and easy setup; one-person assembly.
- Custom branding options available. Minimum quantities apply.

In stock, ready to ship from one of our distribution locations.
