

# WALL TENTS

## FIERCELY RELIABLE<sup>™</sup> SINCE 1921.

Since 1921, Norseman's Wall Tents have been engineered to withstand extreme temperatures and harsh elements like wind, dust, snow, silt and noise.

**Norseman's Wall Tents** are constructed with fire-resistant, high-grade canvas and designed for easy setup using the optional aluminum frame, natural materials or lumber. They are ideal for camping, backcountry outfitters, hunting and more.

- 10.10 oz. Sunforger flame-resistant (FR) army duck, lightweight, tight-weave cotton canvas tent fabric.
- Water repellent, mildew resistant and FR to meet the CPAI-84 Section 6 standards.
- Woven poly sod cloth seals the bottom of the tent to uneven ground.
- 5'7" walls can accommodate bunk-bed cots, increasing sleeping capacity and providing more headroom along walls.
- Three zippered windows covered with netting (20" x 30").
- Full-insect-screen front door comes with a zipper and protective canvas flap.
- 4" eaves provide better water runoff and include heavy-duty brass grommets with nylon guy-ropes and traditional wooden toggles.
- 6" silicone stove-pipe ring on 18" x 18" square, with flap and ties.
- Includes outside ridge ties, corner ties, and inside ridge ties for clotheslines.
- All stress points are reinforced.
- Canvas carrying bag included.
- Frames are lightweight 1.5" aluminum tubes with steel corner joints and foot pads for the wall poles.
- Custom sizes and configurations available upon request.

**In stock, ready to ship from one of our distribution locations.**
