AC Ultra Street Charger

Powerful AC Charging Station

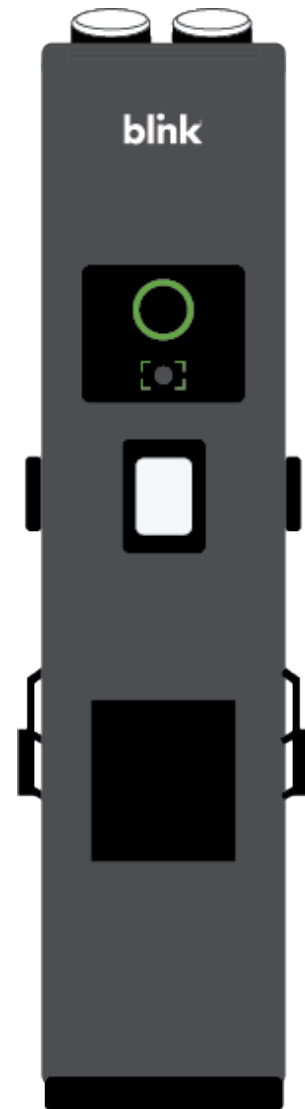

The Autel Ultra Street Charger is a sleek, dual 22kW public EV charger designed for urban spaces, offering fast charging, digital advertising, and seamless Plug & Charge convenience for businesses and local authorities.

FLEXIBLE • INTUITIVE • DURABLE

The AC Ultra Street Charger is a powerful charger ideal for public applications. Designed for high-traffic public spaces, this dual 22kW AC charger combines cutting-edge technology with sleek design to deliver fast, reliable charging. Its 8-inch interactive touchscreen doubles as a digital advertising platform as well as providing users with charging information. With Plug & Charge readiness, robust weatherproofing, and seamless connectivity (4G, Wi-Fi, Ethernet), it's engineered for effortless integration and maximum uptime.

Feature/Benefits:

- Up to 22kW per port
- 8" display screen for enhanced user interaction and digital marketing
- 4G, Wi-Fi and Ethernet connectivity options
- Future-ready with ISO15118 readiness
- Robust and weather resistant design
- Optional payment terminal for user-friendly payment functionality

*Tesla adapter required
