# 120-240kW All-In-One DC Charger

DCFC EV Charging

The 120-240kW All-In-One DC chargers deliver fast, versatile charging up to 500A, depending on configuration, while supporting simultaneous charging for two vehicles. Built for durability and easy serviceability, it features a HD touchscreen for easy customer interaction and usage.

## FAST • ACCESSIBLE • COMPACT

The 120-240kW All-In-One chargers provide up to 500A, depending on the configuration. They support simultaneous charging for two vehicles, maximizing efficiency, and reducing wait times. The sleek design includes a 15" LCD screen that offers customers an easier charging process. With OCPP 1.6J, and multiple data connectivity options, including Wi-Fi, Ethernet and 4G, they integrate seamlessly with backend systems and payment solutions. The 120-240kW All-In-One chargers are designed for quick and easy maintenance and are applicable for diverse deployment scenarios.

### Features

- Single or dual cable design
- Up to 120kW, 180kW or 240kW power configurations
- Seamless data connection via Ethernet, Wi-Fi or 4G
- ISO 15118 hardware ready
- 15" HD Touchscreen interface for easy user interaction
- Durable and accessible design for easy maintenance
- CCS1 and NACS cables available
