

Kattsafe®

NEWSLETTER

Our newsletter contains an inside look into Kattsafe, a recap of key events from Q3, and what you can look forward to in the upcoming months.

Q3 Fiscal
Year 2026

Simpler Systems Are Safer Systems.

With three quarters of 2026 behind us, there’s plenty to celebrate—and more to look forward to!

Q3 brought new resources, expanded product content, and opportunities to connect as a team and give back to our community. Each step reflects our commitment to supporting our customers and making safety simpler.

As we head into the final quarter, we’re building on that momentum with a focus on practical solutions, strong partnerships, and helping you plan for what’s next.

Thank you for being part of the Kattsafe journey. We look forward to finishing the year together, guided by the purpose behind everything we do: helping workers return home safely every day.

THE LATEST AT KATTSAFE

Kattcare® Is Now a Registered Trademark

A milestone in establishing our service offering with the Kattsafe brand. Look for the Kattcare® name in our materials, communications, and documentation going forward.

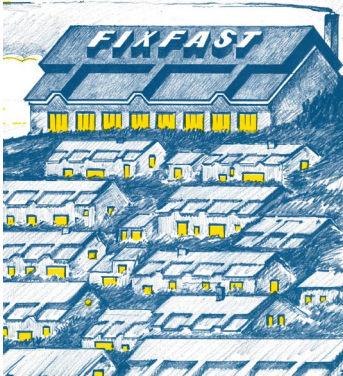

The History of Kattsafe

Read the full story

Founded in England in 1974, Kattsafe began as a family business with a simple idea and a willingness to embrace new opportunities.

Today, we’re a unified global brand, shaped by decades of innovation, partnerships, and a commitment to solving challenges for those working at height.

90
DAY

Extended Quote Validity

We’ve extended our quote validity period to 90 days for Q4 planning, giving you more time to review options, coordinate budgets, and finalize purchasing decisions. If your project moves beyond that window, contact our team for an updated quote.

Updated Warranty Documentation

We’ve updated our warranty documentation and encourage customers to review the latest version when considering coverage or making a warranty inquiry.

WEBSITE UPDATES

We’re making it easier to find what you need! Explore new product pages, expanded content, and resources for your next project.

New Download Categories

Tools & Checklists and **Specifications** now have their own categories in our Downloads tab, giving resources previously filed under “Other” a clearer home—and helping you find what you need with less searching.

New Mission Critical Industry page & One-pager

Explore our **new industry page** and **download the one-pager** for a quick look at how Kattsafe supports safe access in these demanding environments.

Click the box to navigate to the page

Mission Critical
Access and fall protection solutions engineered for mission critical environments where uptime matters.

Food, Beverage, and Grocery
Solutions for protecting workers, reducing risk, and keeping operations running without costly interruptions.

Education
Solutions for helping schools and universities maintain safer facilities with minimal disruption.

New AP130T Fall Restraint Anchor for Membrane Roofs

Our AP130T anchor now has its own product page, bringing the details and supporting resources together in one spot. Explore the page for updated technical drawings, installation manual, and more.

Click the box to navigate to the page

AP130T
AP130T Fall Restraint Anchor
Fall restraint anchor for membrane roof applications.

KSA.002
Extended Post Anchor
Extended post aluminum anchor designed for deck-mounted installation and smooth integration with rooftop safety systems.

KSA.TM.001
Top Mount Anchor
Anchor designed for fall restraint applications, featuring a 360° swivel connection and suited for membrane and built-up roof systems.

New Flexible Walkway Compatibility Table

We’ve added a **compatibility table** to our flexible walkway page, making it easy to find the right option for your roof type.

Click the table to navigate to the page

Compatible Walkway	Roof Type	
TPO Flexible walkway	– Elastomeric coating – TPO roof	
PVC Flexible walkway	– EPDM – GRP – PVC roof – Coated steel	– Modified bitumen – Silicone coated – Stone ballasted roof

FIXED LADDER PAGE UPDATES

New Accessories Added

Our **caged ladder security door**, **change in direction platform**, and **midway rest platform** now have their own product pages! Each includes updated literature, making it easier to explore the accessories and find the details you need for your next project.

Click the boxes to navigate to each page

LD427.C
Caged Ladder Security Door
The LD427.C Caged Hinged Ladder Security Door can be used with Kattsafe RL40 series caged ladders to provide restricted access for personnel.

KBCOD.4872
Change in Direction Platform
Provides a safe, guarded transition between offset ladder sections, helping workers reposition and continue their climb.

LD430
Midway Rest Platform
Provides a stable place for workers to pause during long climbs and is required at maximum 150ft intervals on ladders with a personal fall arrest or ladder safety system.

New Fixed Ladder Pages

We’ve expanded our fixed ladder pages with **LDWK ladder platform mounting options**, **ladder base options**, **wall bracket options**, and **hardware kits**. More details at your fingertips to help you bring the pieces of your next project together!

Click the boxes to navigate to each page

LDWK
Ladder Platform Mounting Options
Mounting options for ladder platforms across a range of roof types and applications.

LD
Ladder Base Options
Fixed ladder base mounting options

LD421
Wall Bracket Options
Fixed, adjustable, and suspended brackets accommodate different wall clearances, mounting configurations, and support requirements.

WBH-K
Hardware Kits
Mounting hardware kits are available for concrete, masonry, metal, stucco, and wood surfaces.

MODULAR ACCESS PAGE UPDATES

New Product and Mounting Pages

New pages for **access platforms**, **elevated walkways**, **suspended walkways**, and **base mounting options** make it easier to explore the range and find the details you need to plan your next project.

Click the boxes to navigate to each page

KB
Access Platforms
Used to provide access up to machinery and elevated equipment for inspection and maintenance.

KC500
Elevated Walkway
Elevated access over obstructions or around cooling towers, water tanks and machinery.

PS600
Suspended Walkway
Provide access above plant equipment and personnel or into internal ceiling spaces. They can be mounted to roof purlins or concrete.

KBMK
Base Mounting Options
Modular access base mounting options.

Q3 EVENTS

Leadership Breakfast

Our leadership team traded their usual responsibilities for aprons and spatulas to thank the Kattsafe team for their hard work throughout Q2.

On the menu: bacon, eggs, sausage, toasted ciabatta rolls, cinnamon rolls, and fruit parfaits with homemade granola—all served with fresh orange juice and iced coffee.

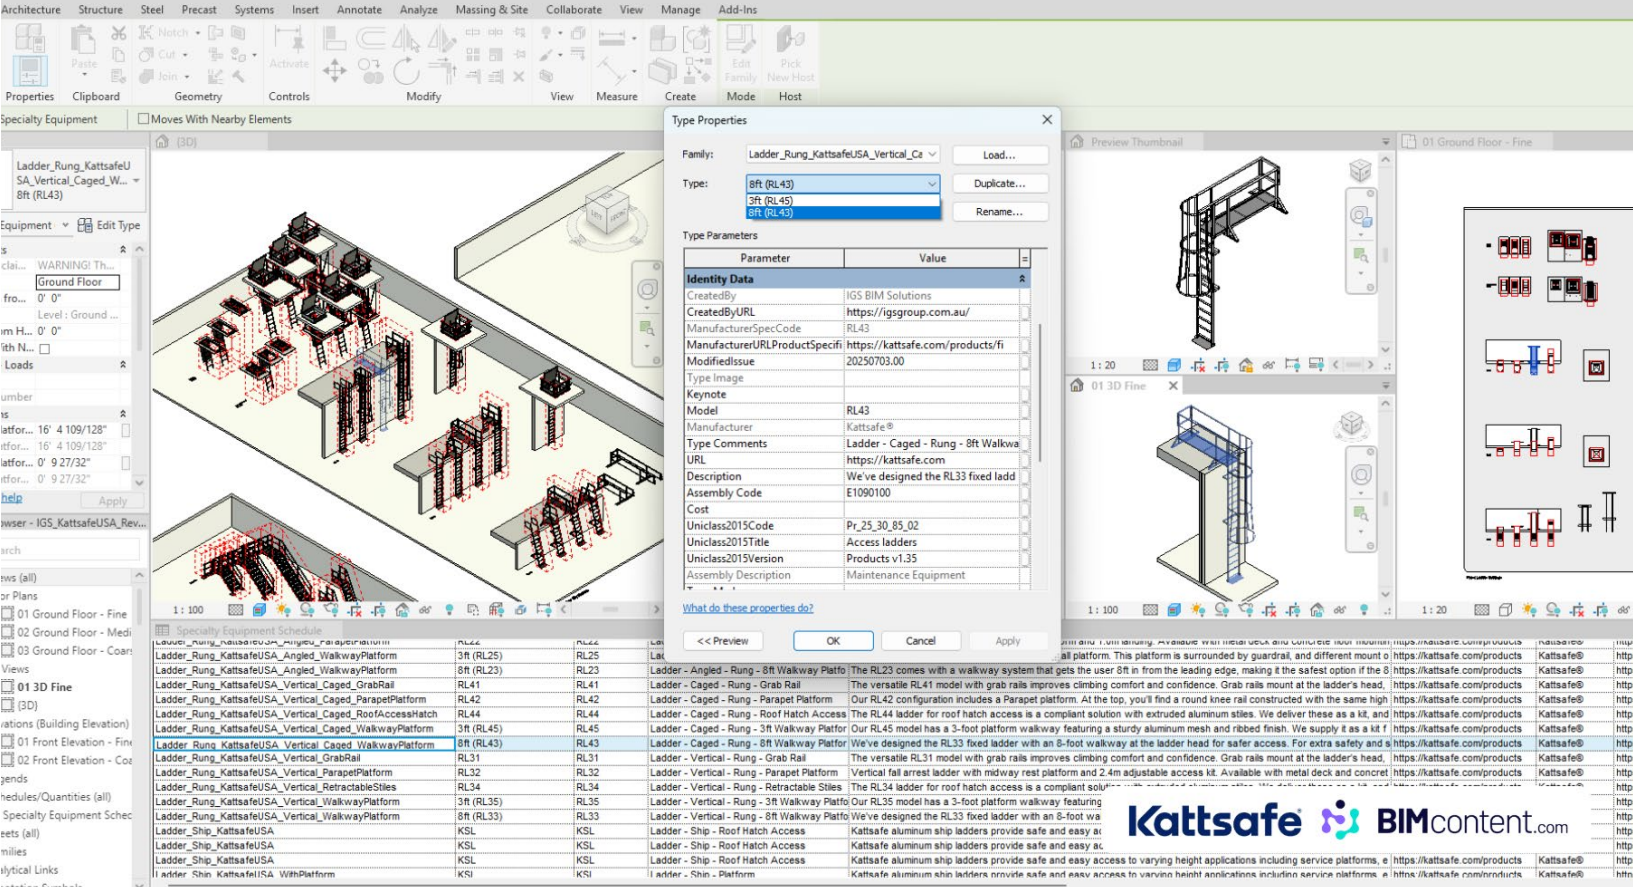

It was a chance to connect, celebrate shared accomplishments, and thank the people whose dedication supports our customers every day. And with leadership handling breakfast, the rest of the team had one important job: come hungry!

The 2026 Kattsafe Brickyard Classic

A little rain couldn't dampen the fun at our first Kattsafe Brickyard Classic! Held at Thatcher Golf Course in Speedway, Indiana, the outing brought our team together for friendly competition with a purpose: raising funds for a cause chosen by the winning team.

This year's winners selected Riley Children's Health, bringing our purpose of "We enrich and save lives" beyond the workplace and into the community. Thanks to Thatcher Golf Course for hosting a memorable day—we're ready to tee it up again next year!

BIM/REVIT LIBRARY

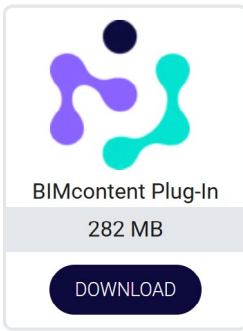

Browse the full library
kattsafe.com/specifiers/revit-bim-resources

Still working through project specs?

Use our BIM library to simplify the process—access accurate models, save time in design, and specify with confidence.

Built 100% natively in Revit, our library offers high-quality, easy-to-use models of our height access and fall protection systems, including guardrails, ladders, platforms, ramps, and more.

The full library is available on our website, with options to download individual families, product collections, or a complete Virtual Showroom project file.

Work Smarter in Revit

Access our full BIM library instantly with the free BIMcontent Revit Plugin—search, load, and place families without ever leaving your model.

RESOURCE HUB UPDATES

We’re constantly seeking ways to enhance your experience and provide you with the most up-to-date resources. Check out the latest additions to our resource hub, designed to make height access and fall protection simpler and safer than ever

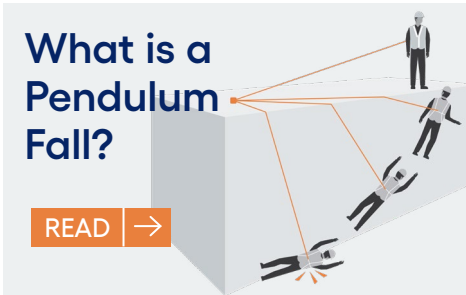

NEW VIDEOS

Two new animations bring the details to life! Watch how our industrial cranes stack, then take a closer look at how the T-bolt works. A little motion makes it easier to see how everything comes together.

UPDATED / NEW BLOGS

From pendulum falls and the Buy American Act to “250 Years of Safety” and “Crossroads of America,” there’s plenty of new content to explore on our blog. We’ve also refreshed our Golden Gate Bridge article—giving you another reason to revisit an old favorite!
