

FOOD, BEVERAGE, & GROCERY INDUSTRY CAPABILITIES

WE ARE WORLD-LEADING HEIGHT ACCESS AND FALL PROTECTION MANUFACTURERS

Simpler systems are safer systems. That's why we design and manufacture industry-leading, high-spec products for height access and fall protection systems that deliver maximum safety with minimum fuss. But 'good' is never enough for us and we continue to push the standards of safety forward with each innovation we develop.

We've been improving workplace safety since 2002. From designing the highest quality products and systems in the industry to providing all the specifications and details you need for safe installation and use, we're obsessed with making your height access and fall protection systems as simple, and as safe, as possible. Because when it comes to protecting lives, there are no shortcuts.

OUR PRODUCTS

ACCESS. PROTECT. CONNECT.

OUR CAPABILITIES

With our newly expanded facility - spanning over 93,000 sq. ft. - we've scaled our operations to offer even greater efficiency, precision, and product quality. From advanced aluminum manufacturing to in-house engineering and testing, our capabilities are built to support projects at any stage, from concept to completion.

Made of durable, non-corrosive, high-tensile strength aluminum

Designed and manufactured to meet and exceed OSHA standards

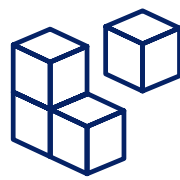

Boxed products are in-stock and ready to ship within 1-3 business days

As a global company, we bring innovation, expanded capabilities, and smarter safety solutions

Flat pack shipping to facilitate ease of handling and bigger savings on freight costs

Modular components offer a section-based design for endless configurations to meet site requirements

Our systems meet the Buy America Act requirements, ensuring that it's sourced and manufactured domestically

Our 5-year warranty surpasses industry standards, offering greater long-term cost savings

Access

- Fixed ladder systems
- Fold down ladders
- Roof hatches
- Ship ladders
- Stair & platform systems
- Rooftop crossovers
- Modular ramp systems
- Dock stairs

Protect

- Guardrails
- Walkways
- Skylight protection
- Warning line

Connect

- Lifelines
- Anchor points

Accessories

- Signage, fixings and hardware

Go where you need to, safely with the most advanced height access and fall protection systems from Kattsafe.

Designed by industry-leading experts and manufactured using advanced fabrication techniques at our facilities in the USA and Australia, every Kattsafe component, product, and system is designed to the highest specification for complete confidence that your people's lives will be protected.

GO WHERE YOU NEED TO, SAFELY WITH KATTSAFE

Our high-spec components and products integrate seamlessly for modular systems that offer endless opportunities to create the safest solution possible. By using innovative components across multiple products and systems, we can customize our safety systems to suit any building or business around the world.

OUR PURPOSE IS SIMPLE: WE SAVE LIVES

Working at heights results in too many serious incidents every year and we know first-hand the devastating effects a fall can have. Everything we do is about reducing this number and getting workers home safe to their families each day.

Our vision is to be the world’s most trusted height access and fall protection company, providing simple safety solutions that keep people around the world safe.

BUDGETING MADE EASY

Submitting projects for capital approval? You're not alone.

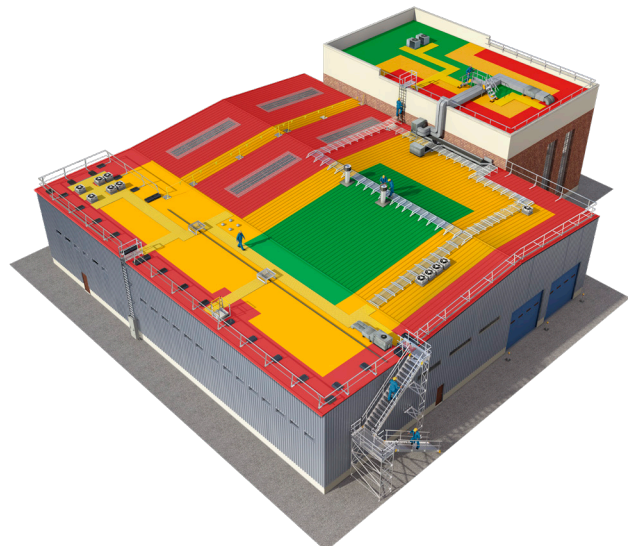

Many teams want an efficient way to build a preliminary budget that leadership will approve—especially when safety isn't the only item on the capital expenditure list. We offer **Roof Safety Audit™** assessments to help you **scope, prioritize, and budget early** so you can move fast when the project gets approved.

K ROOF SAFETY AUDIT™

Kattsafe Roof Safety Audits™ are performed by height safety experts to ensure you get the most accurate, compliant, corrective actions.

We'll help you determine the best safety solutions and systems to use when addressing potential fall hazards, ensuring OSHA compliance.

We offer different tier options so you can choose the one that best aligns with your safety goals and budget.

Tier 1 (PRSA) PRELIMINARY ROOF SAFETY AUDIT™

- Remote view of the facility
- Simple roof layout
- Budgetary document
- Price: \$

Tier 2 (RSA) ROOF SAFETY AUDIT™

- Remote view of the facility
- Advanced roof layout
- Project checklist
- Budgetary document/Material quote
- Product recommendations
- Compliance audit & solutions
- Price: \$\$

Tier 3 (ORSA) ON-SITE ROOF SAFETY AUDIT™

- On-site roof safety assessment conducted by height safety experts
- Everything else in Tier 2
- Price: \$\$\$

CASE STUDY FOOD, BEVERAGE, & GROCERY DISTRIBUTION CENTER

See how a major distribution center boosted rooftop safety and efficiency with **custom crossover stairs** and **non-penetrating guardrails**. Featuring insights from the **Roof Safety Audit™**, this case study highlights reduced maintenance time and improved compliance.

What You Save When You Invest in Safety

\$160,000

Estimated cost savings per serious injury-related incident

\$50,000+

Potential savings per event by reducing operational downtime

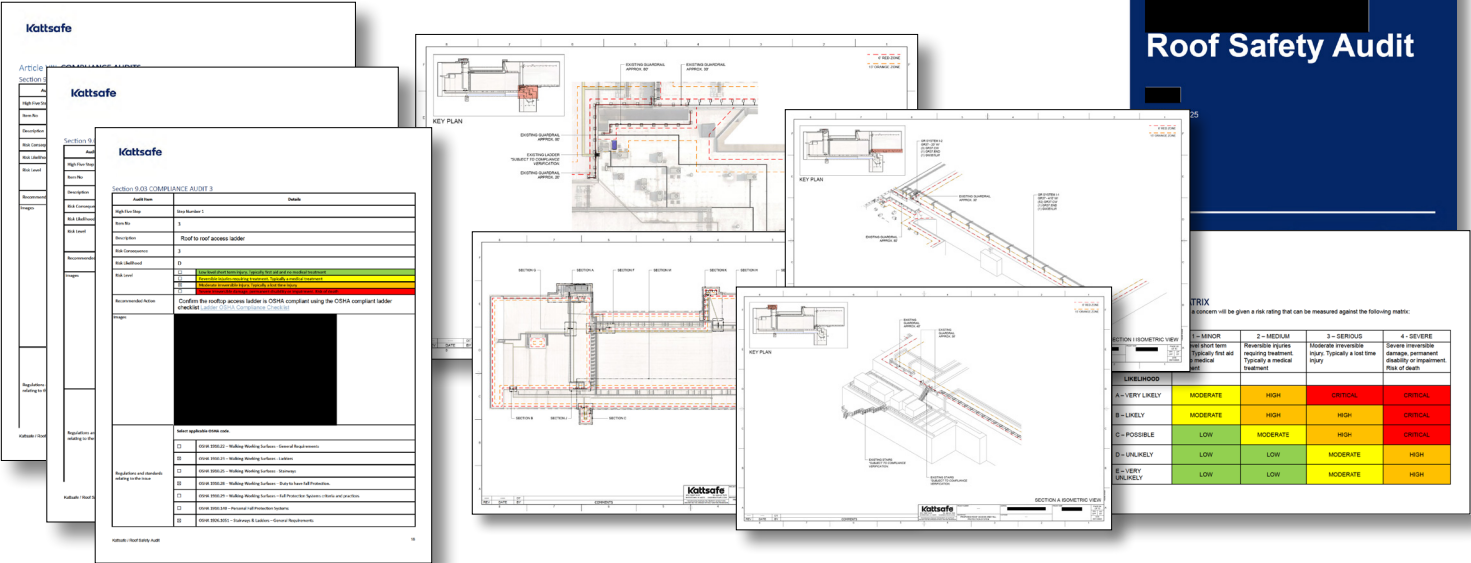

\$25,000+

Savings in productivity losses by improving audit readiness and avoiding disruptions

Up to 80%

Reduction in injury-related downtime with engineered fall protection systems

Example deliverables included in the Tier 2 Roof Safety Audit™

STANDARDIZE SAFETY - EVEN ACROSS SHIFTING TEAMS

Safety that scales with you.

Managing multiple sites, high turnover, or changing contractors? We help you stay consistent.

Whichever facility types you choose to start with, from food processing plants to distribution centers and grocery retail, our systems are modular and easy to install, making phased roll outs simple. And because box products don't require cranes or complicated logistics, you save time and money.

HIGH-VISIBILITY SITES NEED HIGH-QUALITY SOLUTIONS

Don't just meet code - Look good doing it.

When customers or clients see your rooftop, you can't afford clunky equipment or half-finished installs. Whether it's a flagship plant or a heavily toured site, your fall protection should look as good as it performs. Our aluminum systems are OSHA-compliant, low-profile, and built to complement your facility's aesthetic—not distract from it. Painting the perspective that your operations are clean inside and out.

WHEN TIME IS MONEY, WE DELIVER

Your team can't afford to wait weeks.

Tired of waiting weeks for quotes, approvals, or install dates? You're not alone. Large multi-site operations and fast-paced facility teams need responsive partners who move quickly—because safety can't wait.

With Kattsafe, you can count on quick timelines per the following:

- Quote turnaround in 24-48 hours
- Box products packed and shipped in 1-3 business days
- Production projects packed and shipped in 1-3 weeks

Whether you're dealing with safety risks from non-compliant systems or pressured by project deadlines, we'll help you stay compliant—and keep operations moving without unnecessary delays.

SHORT ON MANPOWER? OVERWHELMED BY VENDORS? WE'VE GOT YOU.

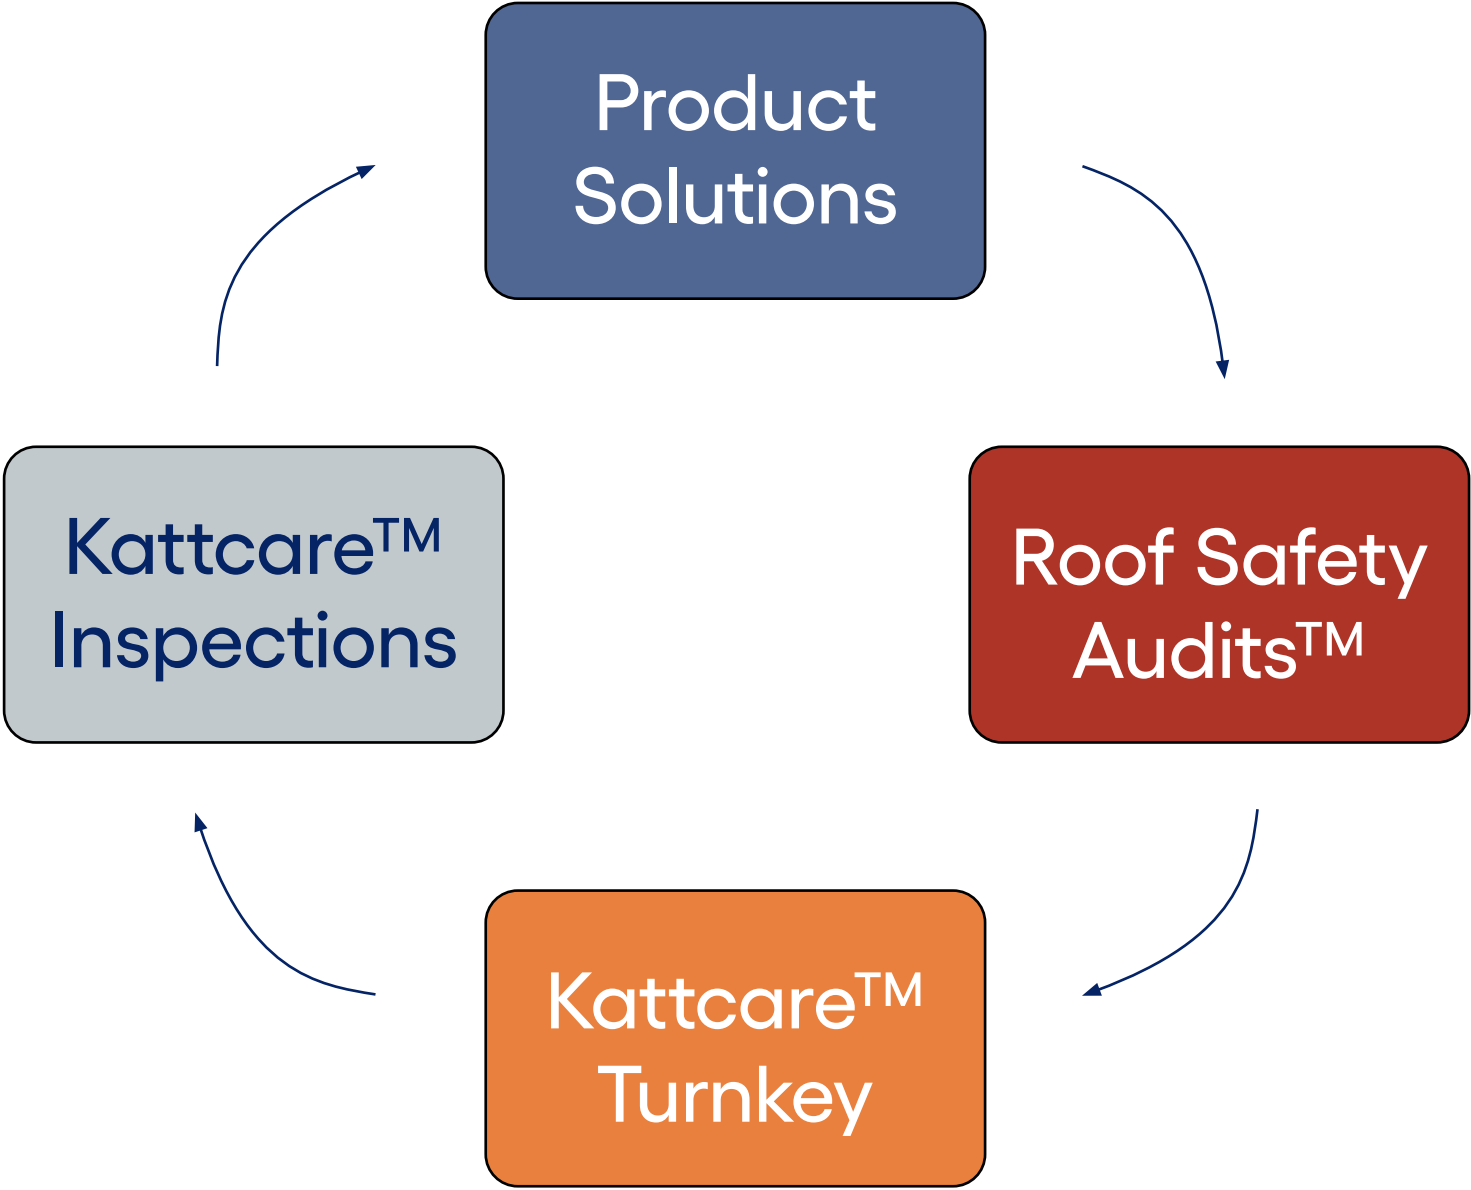

K KATTCARE™ TURNKEY

You want it done right the first time. But when manpower is tight—or your vendor sends someone out for the eighth time and it's still not fixed—you need more than just parts.

Kattcare™ Turnkey is your full-scope install solution: we manage labor, logistics, and compliance so your team doesn't have to.

FULL SERVICE LIFECYCLE

As your one-stop shop for all fall protection needs, Kattsafe streamlines the process, making it easier and more efficient to manage your safety requirements - from start to finish.
