About TikTok U.S.

Established in 2026 to operate and secure TikTok's U.S. platform, TikTok USDS Joint Venture (TikTok U.S.) enables 200 million Americans and 8.5 million U.S. businesses to create, discover, and connect. In compliance with federal mandates, TikTok U.S. safeguards the American experience through comprehensive data privacy and cybersecurity protocols, independent software assurance that validates source code, trust and safety measures, and an algorithm retrained exclusively on U.S. user data.

In collaboration with TikTok U.S., PF Global measured the economic impact of the TikTok platform to local communities and businesses across the United States. PF Global fielded two independent, nationally representative surveys - a consumer survey of 11,123 U.S. adults and a business survey of 5,100 U.S. businesses, including 2,741 small- to mid-sized businesses (SMBs) - to learn how businesses and users interact with the app and leverage its economic and social opportunities.
