

# Digital security matters for our community

**Authoritarian regimes always use surveillance** as a primary tool to assert power and repress dissent.

**The Trump regime is buying a lot of new surveillance tools** to track activists, immigrants, and everyone in the country.

**Surveillance thrives on weak links. Don't be one!** Secure your devices to help protect your community.

**ActivistChecklist.org**  
for easy-to-follow digital security checklists

Easy-to-follow **digital security guides** for:

- ✓ Digital security essentials
- ✓ Prepare for a protest or action
- ✓ Using Signal securely
- ✓ Flights and border-crossing
- ✓ Setting up a burner phone for protests

Some essential tips for security:

- Use **Signal** — esp. when talking about resistance
- Disable **location permissions** on 99% of apps
- Use **Brave browser** to reduce tracking
- Use **Brave/DuckDuckGo search** (not Google!)
- Use **Apple Maps** or **Magic Earth** (not Google!)
- **EasyOptOuts.com** removes private info online
- Enable **Lockdown Mode** (iPhone)
- Enable **Advanced Protection** (Android)
- Turn your **phone off** if arrest risk is high
- Get friends together to go through these guides
