

Introducing SmartAccess

ELEVATING COURT SECURITY AND CONVENIENCE

SmartAccess is a cutting-edge court locking solution designed to **enhance safety, security, and accessibility** at your local community courts. This innovative system involves the installation of coded locks at your facility entrance, granting players exclusive access to the courts using individualized codes that are only valid for the duration of their booking.

UNLOCK THE BENEFITS OF SMARTACCESS

Create a fully online, self-service court booking experience

Manage court bookings, schedules, and policies for multiple facilities remotely

Access real-time reports and insights for player participation and court usage

Generate revenue through court bookings and local promotions

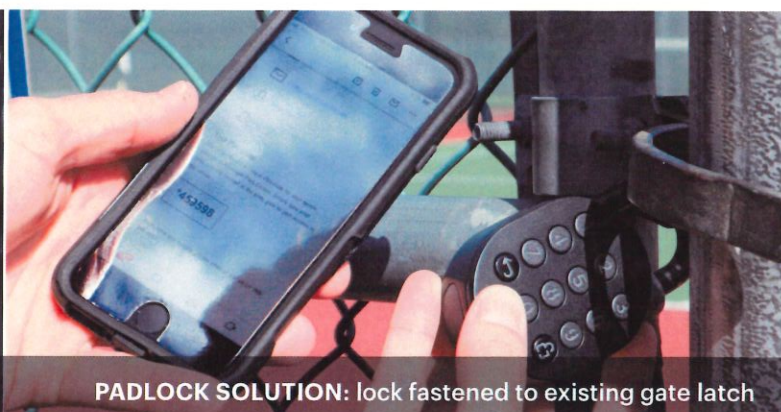

Automate lighting systems based on court reservations and predefined configurations

SMARTACCESS INSTALLATION

SmartAccess offers flexibility to accommodate various budgets with two lock types:

BUILT-IN SOLUTION: keypad installed directly into the gate

PADLOCK SOLUTION: lock fastened to existing gate latch

Additionally, you may be eligible for financial support through the USTA Tennis Venue Services grant program, which can cover up to 50% of your project's cost (maximum \$5,000) under Category 1 funding criteria. For more information on funding opportunities, please visit [USTA.com/facilities](https://www.usta.com/facilities).
