

The last thing you need is another locums vendor. You need a locums partner.

While some vendors are content to outsource to many other agencies, we offer a different approach. Our integrated solution combines the power of our brands into one relationship – one CHG account executive dedicated to fill your specific needs.

The solution

Partnering with CHG can help you realize value across your entire system:

- Our ability to **fill jobs faster** and with better matches helps you see revenue sooner
- **Preferred pricing** offers you the kind of bulk buying power you couldn't otherwise achieve
- **Custom reporting** brings you a level of visibility essential to understanding your locums cost
- **Delegated credentialing** allows you to remove cost from your hospital credentialing department while maintaining industry-leading quality standards
- Our **consulting services** begin with understanding your needs, then creating a single point-of-contact solution to streamline your provider recruitment

The key issues you face every day are part of every CHG solution

Deliverability

Every day you wait to fill a physician job is a day of lost revenue – and a day of lost patient care.

Quality

When your reputation, your reimbursement, and your patients' care are on the line, quality matters.

Cost containment

Fragmented processes, lack of visibility, and inefficiencies all lead to costly financial leaks.

Partnership

We view ourselves as an extension of your organization. Our approach results in a solution created specifically for you.
