LANDLORD AGREEMENT

I, _____, state that I am the _____ of the property located at _____ (Use second sheet to list additional properties.) I further state that this property will be rented and that the tenants will be responsible for making arrangements for their own utility services.

Upon request from the tenant to have their electric service discontinued, I hereby authorize ODP (the Company) to bill the service to the name listed below until such time as a new tenant applies for service. I will accept responsibility for all amounts billed to the name listed below and shall pay said amount by the due date indicated on each bill. Upon discontinuance of electric service to a tenant for non-payment of said tenant's utility bill, the service will remain off until such time as (1) the delinquent balance is paid in full by the tenant and service is re-established in the tenant's name; or (2) the indebted tenant vacates the property and I authorize the service to be transferred into my name. I further agree to advise the company any time a tenant vacates the property. In addition, if electric services are off at the time the tenant requests service to be taken out of their name, the services will remain off until the Company is contacted and a request is placed to turn them back on.

In addition, I further agree to notify the Company if I sell the property listed above (or any property referenced on the attached listing) so it can be deleted from this Landlord Agreement. Pursuant to this Agreement, I will otherwise be responsible for payment of any bill issued for electric service provided at this address until I have notified the Company of any changes.

Pursuant to the Company's tariff, I agree that I will be subject to the Company's collections and disconnect procedures at this address if I fail to pay any transferred balance in a timely manner. Failure to pay all balances in a timely manner could also result in the property/properties being removed from this Agreement by the Company.
