

# A quick overview of your bill.

- 1 Quick-glance Amount Due and Payment Due Date.
- 2 Easy-to-read summary of your bill including the total charges from your last statement, payments applied, and the remaining balance along with the bill amount for the current month.
- 3 The account name and service address along with ways to pay and contact information for Customer Service. We also include the date range of your next meter reading so you know when your meter will be read and you can be sure we are able to get to your meter, if needed.
- 4 Use this information to compare how much energy you used this month to the energy you used during the last 12 months, along with other impacts to your energy use such as the average temperature outside and the number of days billed. This can help you understand your bill total and if there are any energy-saving actions you should take.
- 5 This section contains your meter readings and usage. We attempt to read your meter every month; however, sometimes the reading is estimated. To obtain your energy usage, we subtract the previous meter reading from the current reading. The current usage is then multiplied by the meter multiplier (typically 1) to obtain your monthly metered usage.
- 6 This section contains the calculations to arrive at the amount you owe for each energy service you have with us. Your total monthly usage is multiplied by your electric rate and added to any additional charges (see next page for complete descriptions of individual charges) to obtain your total current charges.
- 7 If you have an outdoor light, a section called "Current Unmetered Usage" will appear here. In addition, the "Taxes & Fees" section displays a breakdown of taxes and fees included in your bill.
- 8 If you are unable to pay the bill by the due date, a late fee is charged and is indicated in this section. The fee is based on a percentage of the current bill amount each month. Additional information about programs in which you participate also appear in this section.

**KU**  
a PPL company

Mailed 2/13/23 for Account # 0000-0000-0000

**1** AMOUNT DUE **\$112.66** DUE DATE **3/8/23**

**3** App, online or phone payments made before 7 pm ET will be posted same day

Account Name: JANE DOE  
Service Address: 123 Main Street, LOUISVILLE  
Payment Options: Mobile app - LG&E KU ODP mobile app, Online - lge-ku.com, Phone - (800) 981-0600, press 1-2-3

## Your KU bill includes detailed data and messages to help you understand the amount of your bill.

The following line items can be found under the **Electric Charges** section of your bill (shown above).

All of these charges have been reviewed and approved by the Kentucky Public Service Commission. [psc.ky.gov](http://psc.ky.gov)

- **Basic Service Charge** — A charge to help cover the costs of meter reading processing, service lines, and billing and payment processing. Calculated by multiplying the number of days in the billing period by the current basic service charge rate.
- **Energy Charge** — Composed of costs, such as fuel, that fluctuate with the production of energy, as well as a portion of fixed customer-related expenses not recovered in the Basic Service Charge. Calculated by multiplying the kilowatt hours (kWh) used by the current electric rate.
- **Electric DSM** — Energy efficiency programs, such as Demand Conservation, our online Marketplace and WeCare, offered to customers to provide cost-effective, energy-efficient choices.
- **Fuel Adjustment** — The cost of fuel associated with generating electricity. Changes monthly; calculated per kWh used.
- **Environmental Surcharge** — A charge that pays for government-mandated emission controls, reduced by recycling power generation-produced byproducts. Changes monthly.
- **Home Energy Assistance Fund Charge** — A monthly per-meter charge that provides energy assistance to customers in need who meet specified income guidelines and program criteria.

**Note:** When changes occur during your billing cycle, multiple line items may appear to reflect the distribution of the charges.
