AVIXA
Sustainability Advisory Group

Global Sustainability Certifications for the Pro AV & Allied Industries

A Reference Guide for AVIXA Members

Prepared by the AVIXA Sustainability Advisory Group

INTRODUCTION

The professional audiovisual industry operates at the intersection of architecture, engineering, information and communication technology (ICT), live events, and the built environment. As sustainability requirements accelerate globally, AVIXA members—including end users, manufacturers, consultants, and integrators—increasingly encounter sustainability certifications across their projects, supply chains, and procurement processes.

In addition to certifications, the industry includes many sustainability organizations that offer best practice training, skills development, and connections with leading sustainability advocacy groups around the world. Some organizations describe completion of their training as a "certification." A professional certification, however, generally involves an independent assessment of an individual's competence against defined criteria established by a recognized certification body; a credential or certificate may instead confirm participation in training. As you read this guide, you will want to examine each organization's credential designation and consult its website for detailed descriptions of its certification, credential, or training program.

This reference guide catalogs major sustainability certifications relevant to the professional audiovisual ecosystem and allied industries, as well as credentials and training offered by advocacy organizations. These are organized by type: individual professional credentials, building and project certifications, and corporate/enterprise-level certifications. Each entry identifies the issuing body, geographic applicability, and contact information.

This guide is a living document intended to be updated as new certifications emerge and existing ones evolve. It is not an endorsement of any particular certification but a resource for informed decision-making.

TABLE OF CONTENTS

This document is organized into three major sections based on certification type:

Section 1: Individual / Professional Certifications 4

Section 2: Building, Project & Organizational Certifications 7

Section 3: Corporate & Enterprise Certifications 10

Section 4: Regulatory Frameworks & Mandatory Standards. 12

Section 5: Industry-Specific Frameworks (Pro AV, Live Events, ICT) 13

Appendix: Additional Resources & Contact Information 15

SECTION 1

Individual / Professional Certifications

These credentials are earned by individual professionals and demonstrate competency in sustainability-related disciplines. They are relevant to AV designers, consultants, engineers, project managers, and sustainability officers working within or alongside the Pro AV industry.

1.1 BUILT ENVIRONMENT & GREEN BUILDING CREDENTIALS

CERTIFICATION	FOCUS AREA	ISSUING BODY	REGION	WEBSITE	NOTES
LEED Green Associate	Green building fundamentals	GBCI / USGBC	Global	usgbc.org/credentials	Entry-level green building credential; no project experience required
LEED AP with Specialty (BD+C, ID+C, O+M, Homes, ND)	Advanced green building by rating system	GBCI / USGBC	Global	usgbc.org/credentials	Requires LEED GA first; specialties include Building Design+Construction
LEED Fellow	Exemplary green building leadership	GBCI / USGBC	Global	usgbc.org/credentials	Nomination-based; 10+ years experience required
WELL AP	Health & well-being in buildings	GBCI / IWBI	Global	wellcertified.com	Demonstrates expertise in WELL Building Standard
WELL Faculty	WELL education leadership	IWBI	Global	wellcertified.com	Advanced WELL credential for educators
Fitwel Ambassador	Healthy building certification	Center for Active Design	Global	fitwel.org	Online course + exam; no prerequisites
BREEAM Assessor	BREEAM sustainability assessment	BRE Global	Global (UK-based)	bregroup.com	Licensed assessors for BREEAM certification projects
BREEAM AP (Advisory Professional)	BREEAM project advisory	BRE Global	Global (UK-based)	bregroup.com	Advises project teams on BREEAM strategies
DGNB Consultant / Auditor	German sustainable building	DGNB (German Sustainable Building Council)	Europe / Global	dgnb.de	Auditor credential for DGNB building certification
Green Globes Professional (GGP)	Green Globes rating system	Green Building Initiative (GBI)	US / Canada	thegbi.org	5+ years design/ construction experience required
Green Star Accredited Professional	Green Star rating system	Green Building Council of Australia (GBCA)	Australia / New Zealand / South Africa	gbca.org.au	Credential for Australian green building system
SITES AP	Sustainable landscapes	GBCI	Global	sustainablesites.org	Sustainable Sites Initiative for landscape projects
ENV SP (Envision Sustainability Professional)	Sustainable infrastructure	Institute for Sustainable Infrastructure (ISI)	Global	sustainableinfrastructure.org	15,000+ professionals; civil infrastructure focus
Living Future Accreditation (LFA)	Living Building Challenge	International Living Future Institute (ILFI)	Global	living-future.org	Net-zero and regenerative building expertise

SECTION 1

1.2 SUSTAINABILITY PROFESSIONAL CREDENTIALS

CERTIFICATION	FOCUS AREA	ISSUING BODY	REGION	WEBSITE	NOTES
Sustainability Excellence Associate (SEA)	Core sustainability concepts	GBCI / ISSP	Global	sustainabilityprofessionals.org	Entry-level; formerly ISSP-SA
Sustainability Excellence Professional (SEP)	Advanced sustainability practice	GBCI / ISSP	Global	sustainabilityprofessionals.org	Requires SEA first; 2-year renewal cycle
GRI Professional Certification	Sustainability reporting (GRI Standards)	Global Reporting Initiative (GRI)	Global	globalreporting.org	ESG and sustainability report preparation
FRS Sustainability Disclosure Standards Certificate ESG & Climate-related Financial Disclosures (IFRS S1 and S2)	Climate-related Financial Disclosures	IFRS Foundation	Global	ifrs.org	ESG reporting and financial disclosures
Certified Sustainability (CSR) Practitioner	Corporate social responsibility	CSR Institute / Various	Global	csrinstitute.org	ESG strategy and reporting
City Climate Planner	Urban climate action	GBCI	Global	gbci.org	Municipal and city-level sustainability planning

1.3 ENERGY & ENGINEERING CREDENTIALS

CERTIFICATION	FOCUS AREA	ISSUING BODY	REGION	WEBSITE	NOTES
Certified Energy Manager (CEM)	Energy performance optimization	Association of Energy Engineers (AEE)	Global	aeecenter.org	Systems integrator for energy in facilities
Renewable Energy Professional (REP)	Renewable/ alternative energy	Association of Energy Engineers (AEE)	Global	aeecenter.org	Renewable energy project assessment
Certified Sustainable Development Professional (CSDP)	Sustainable development	Association of Energy Engineers (AEE)	Global	aeecenter.org	Broad sustainability in engineering context
ASHRAE Building Energy Assessment Professional (BEAP)	Building energy assessment	ASHRAE	Global	ashrae.org	Energy audits aligned with ASHRAE standards
Passive House Certified Designer/ Consultant	Passive building standard	PHIUS (US) / PHI (International)	Global	phius.org/passivehouse.com	Ultra-low energy building design

SECTION 1

1.4 EVENTS INDUSTRY CREDENTIALS

CERTIFICATION	FOCUS AREA	ISSUING BODY	REGION	WEBSITE	NOTES
Sustainable Event Professional Certificate (SEPC)	Sustainable events management	Events Industry Council (EIC)	Global	eventscouncil.org	Sustainability and social impact for event professionals
isla Sustainable Events Training	Event carbon measurement	isla (industry body for sustainable live events)	Global	isla.org.uk	Includes TRACE carbon measurement tool access
AGF Assessor Certification	Greener event assessment	A Greener Future (AGF)	Global	agreenerfuture.com	Independent event sustainability auditing

1.5 PRO AV INDUSTRY CREDENTIALS WITH SUSTAINABILITY RELEVANCE

CERTIFICATION	FOCUS AREA	ISSUING BODY	REGION	WEBSITE	NOTES
ETCP (Entertainment Technician Certification Program)	Entertainment rigging & electrical	ESTA / ETCP	US / Global	etcp.esta.org	Safety in live entertainment; overlaps with sustainable practice

1.6 ICT AND IT INDUSTRY CREDENTIALS WITH SUSTAINABILITY RELEVANCE

CERTIFICATION	FOCUS AREA	ISSUING BODY	REGION	WEBSITE	NOTES
ITIL 4 Specialist: Sustainability in Digital & IT	Green IT Strategy	Axelos / PeopleCert	Global	peoplecert.org	Circular Economy Principles, Sustainable Digital Service Design
Green IT Professional	Sustainable Tech Lifecycle	International Framework Commission for General ICT (IFGICT)	Global	ifgict.org	Energy efficiency, e-waste compliance, sustainable procurement

SECTION 2

Building, Project & Organizational Certifications

These certifications apply to buildings, facilities, projects, landscapes, or events. They are relevant when AVIXA members are designing AV systems for new construction, renovation, or event venues, and when facility owners seek to certify their spaces.

2.1 GREEN BUILDING RATING SYSTEMS

CERTIFICATION	FOCUS AREA	ISSUING BODY	REGION	WEBSITE	NOTES
LEED (Leadership in Energy and Environmental Design)	Comprehensive green building	USGBC / GBCI	Global (180+ countries)	usgbc.org/leed	Most widely used globally; v5 now available for BD+C, ID+C, O+M
BREEAM (Building Research Establishment Environmental Assessment Method)	Lifecycle sustainability assessment	BRE Global	Global (UK origin, 50+ countries)	bregroup.com/breeam	World's first green building rating (1990); 560,000+ certified
Green Globes	Flexible green building assessment	Green Building Initiative (GBI)	US / Canada	thegbi.org	Online self-assessment option; Journey to Net Zero available
Living Building Challenge (LBC)	Net-positive regenerative design	International Living Future Institute (ILFI)	Global	living-future.org	Most rigorous standard; net-positive energy, water, waste
DGNB System	Holistic performance-based rating	German Sustainable Building Council (DGNB)	Europe / Global	dgnb.de/en	Strong lifecycle assessment and economic quality focus
Green Star	Sustainability rating for buildings	Green Building Council of Australia (GBCA)	Australia / NZ / South Africa	gbca.org.au	Innovation category rewards novel sustainability approaches
HQE (Haute Qualité Environnementale)	Environmental quality for buildings	Cerway / CSTB	France / International	certivea.fr	14 environmental quality targets; predominant in France
CASBEE	Comprehensive building assessment	Institute for Building Environment and Energy Conservation (IBEC)	Japan	ibec.or.jp/CASBEE	Japanese green building rating system
BCA Green Mark	Tropical climate building assessment	Building and Construction Authority	Singapore / SE Asia	bca.gov.sg	Optimized for tropical climates
GSAS (Global Sustainability Assessment System)	Performance-based sustainability	GORD (Gulf Organisation for Research & Development)	Middle East / Gulf States	gsas.gord.qa	Adapted for arid climate conditions
GRIHA (Green Rating for Integrated Habitat Assessment)	Indian green building standard	TERI / ADARSH	India	grihaindia.org	Aligned with Indian climate and construction practices

SECTION 2

2.2 HEALTH, WELLNESS & SPECIALIZED BUILDING CERTIFICATIONS

CERTIFICATION	FOCUS AREA	ISSUING BODY	REGION	WEBSITE	NOTES
SITES (Sustainable Sites Initiative)	Sustainable landscapes	GBCI	Global	sustainablesites.org	Outdoor spaces, plazas, campuses; 200-point system
WELL Building Standard (v2)	Occupant health & well-being	International WELL Building Institute (IWBI)	Global	wellcertified.com	10 concepts including Air, Light, Sound, Mind
TRUE Zero Waste	Zero waste certification for facilities	GBCI	Global	true.gbci.org	90%+ diversion rate over 12 months required
ENERGY STAR (Buildings)	Building energy performance	US EPA	US (recognized globally)	energystar.gov	Top 25% energy performance vs. similar buildings
ENERGY STAR NextGen	Energy efficiency + low emissions	US EPA	US	energystar.gov	Adds GHG intensity requirements beyond energy efficiency
PHIUS+ / Passivhaus	Ultra-low energy consumption	PHIUS (US) / PHI (Germany)	Global	phius.org	Passive building standard; minimal space conditioning
SKA Rating	Fit-out / refurbishment sustainability	RICS	UK	rics.org	Only rates what is within specific project scope
NABERS (National Australian Built Environment Rating System)	Operational performance rating	Australian Government	Australia	nabers.gov.au	Energy, water, waste, indoor environment
RESET	Real-time data quality for built environments	RESET (GIGA)	Global (Asia origin)	reset.build	Air, Energy, Water, Waste; sensor-based monitoring

SECTION 2

2.3 EVENT & VENUE CERTIFICATIONS

CERTIFICATION	FOCUS AREA	ISSUING BODY	REGION	WEBSITE	NOTES
ISO 20121 (Event Sustainability Management Systems)	Sustainable event management	ISO (via accredited certification bodies)	Global	iso.org/standard/86389.html	Updated 2024; evolved from BS 8901; used at London 2012 Olympics
A Greener Festival (AGF) Certification	Festival & event sustainability	A Greener Future (AGF)	Global (UK origin)	agreenerfuture.com	Since 2007; 11 themes incl. energy, waste, EDI, governance
A Greener Event Certification	Non-festival event sustainability	A Greener Future (AGF)	Global (UK origin)	agreenerfuture.com	Conferences, corporate events, sporting events
EIC Sustainable Event Standards	Business events sustainability	Events Industry Council (EIC)	Global	eventscouncil.org	8 standards; third-party verified; for events and suppliers
Green Key	Sustainable hospitality & venues	Foundation for Environmental Education (FEE)	Global (60+ countries)	greenkey.global	Hotels, conference centers, event venues

SECTION 3

Corporate & Enterprise Certifications

These certifications and frameworks apply to entire organizations or corporations. They are relevant to AV manufacturers, integrators, consultants, and end-user organizations seeking to demonstrate corporate sustainability leadership.

3.1 ISO MANAGEMENT SYSTEM STANDARDS

STANDARD	FOCUS AREA	ISSUING BODY	REGION	WEBSITE	NOTES
ISO 14001:2015 (Environmental Management Systems)	Environmental management	ISO (via accredited certification bodies)	Global	so.org/standards/popular/iso-14000-family	670,000+ certifications worldwide; 2026 revision underway
ISO 50001:2018 (Energy Management Systems)	Energy efficiency	ISO (via accredited certification bodies)	Global	iso.org/iso-50001-energy-management.html	Recognized by US DOE and EPA as best practice
ISO 14064 (GHG Accounting & Verification)	Greenhouse gas quantification	ISO	Global	iso.org	Part 1: Org-level; Part 2: Project-level; Part 3: Verification
ISO 14040/14044 (Life Cycle Assessment)	Product lifecycle environmental impact	ISO	Global	iso.org	Methodology for Environmental Product Declarations (EPDs)
ISO 14024 (Type I Environmental Labelling)	Ecolabel program standards	ISO	Global	iso.org	Standard that EPEAT and other ecolabels comply with
ISO 14025 (Type III Environmental Declarations)	Environmental Product Declarations	ISO	Global	iso.org	Framework for EPDs; increasingly required in EU procurement
ISO 26000 (Social Responsibility Guidance)	Social responsibility	ISO	Global	iso.org	Guidance standard (not certifiable); covers ethical conduct
ISO 20121 (Event Sustainability Management)	Sustainable events	ISO	Global	iso.org	See Section 2.3 for detail; certifiable management system

SECTION 3

3.2 CORPORATE SUSTAINABILITY CERTIFICATIONS & FRAMEWORKS

CERTIFICATION /FRAMEWORK	FOCUS AREA	ISSUING BODY	REGION	WEBSITE	NOTES
B Corp Certification	Holistic social & environmental performance	B Lab	Global	bcorporation.net	Updated 2025 standards; 7 impact topics; 3-year recertification
EcoVadis Rating	Supply chain sustainability assessment	EcoVadis	Global	ecovadis.com	Bronze to Platinum; used by major corporations for supplier scoring
Corporate Net-Zero Standard Validation	1.5°C-Aligned Greenhouse Gas Reduction Targets	Science Based Targets initiative (SBTi)	Global	sciencebasedtargets.org	World's primary scientific framework for corporate climate goals
CDP Disclosure (Climate, Water, Forests)	Environmental disclosure	CDP	Global	cdp.net	A to D- scoring; world's largest environmental disclosure system
Global Reporting Initiative (GRI Standards)	Sustainability reporting	Global Reporting Initiative (GRI)	Global	globalreporting.org	Universal, Sector, and Topic standards; widely adopted
EMAS (Eco-Management and Audit Scheme)	Environmental management & audit	European Commission	EU / EEA	ec.europa.eu/environment/emas	More demanding than ISO 14001; EU regulatory alignment
SME Climate Hub	Net-zero commitment for SMEs	SME Climate Hub / We Mean Business	Global	smeclimatehub.org	Simplified commitment for small/medium enterprises
CO2 Performance Ladder	CO2 reduction in procurement	Foundation for Climate Friendly Procurement and Business (SKAO)	Netherlands / Belgium / expanding	co2performanceladder.com	3 steps; used in public procurement tenders
Planet Mark	Annual carbon footprint certification	Planet Mark	UK / Global	planetmark.com	Year-over-year reduction commitment

Regulatory Frameworks & Mandatory Standards

These are not voluntary certifications but regulatory requirements that increasingly affect Pro AV manufacturers, integrators, and end users—particularly those operating in the European Union or selling products into EU markets.

FRAMEWORK	FOCUS AREA	AUTHORITY	REGION	WEBSITE	NOTES
EU CSRD (Corporate Sustainability Reporting Directive)	Mandatory sustainability reporting	European Commission	EU / Companies with EU operations	ec.europa.eu	Large companies report from 2025; wave 2 delayed to 2028; uses ESRS standards
EU ESPR (Ecodesign for Sustainable Products Regulation)	Product sustainability requirements	European Commission	EU (all products sold in EU)	green-forum.ec.europa.eu	In force July 2024; ICT/displays in scope; DPP required
EU Digital Product Passport (DPP)	Product lifecycle data transparency	European Commission	EU (all products sold in EU)	green-forum.ec.europa.eu	Registry opens July 2026; QR/RFID-based; machine-readable
EU Energy Labelling Regulation	Energy efficiency labeling	European Commission	EU	ec.europa.eu	Mandatory for displays and electronic equipment
EU WEEE Directive	Waste electrical/ electronic equipment	European Commission	EU	ec.europa.eu	Producer responsibility for end-of-life electronics
EU RoHS Directive	Restriction of hazardous substances	European Commission	EU	ec.europa.eu	Restricts lead, mercury, cadmium, etc. in electronics
EU REACH Regulation	Chemical substance registration	European Chemicals Agency (ECHA)	EU	ec.europa.eu	Registration, evaluation, authorization of chemicals
EU Taxonomy Regulation	Sustainable economic activity classification	European Commission	EU	ec.europa.eu	Defines environmentally sustainable activities for investment
Extended Producer Responsibility (EPR)	Product End-of-Life Management, Packaging Waste Reduction	State/Regional Government Agencies	Regional / Multi-National (US, Canada, EU, UK, India)	sustainablepackaging.org	Mandatory framework shifting financial and operational burden to the product manufacturer or brand owner.
China Energy Label (CEL) Registration	Electronics Energy Efficiency Standards	China National Institute of Standardization (CNIS)	China	energylabel.gov.cn	Compulsory labeling of energy-efficiency tier grades (Levels 1–5)
California SB 253/261 (Climate Accountability)	GHG disclosure requirements	California Air Resources Board (CARB)	California (affects global companies)	ww2.arb.ca.gov	Scope 1-3 disclosure for companies doing business in CA
SEC Climate Disclosure Rule	Climate-related financial disclosures	US SEC	US (publicly traded companies)	sec.gov	Status subject to legal challenges; Scope 1 & 2 focus

SECTION 5

Industry-Specific Frameworks (Pro AV, Live Events, ICT)

These certifications and ecolabels are specific to products, equipment, and practices within the Pro AV, ICT, electronics, and live events sectors.

5.1 ELECTRONICS & PRODUCT ECOLABELS

CERTIFICATION	FOCUS AREA	ISSUING BODY	REGION	WEBSITE	NOTES
EPEAT (Electronic Product Environmental Assessment Tool)	Electronics lifecycle sustainability	Global Electronics Council (GEC)	Global (67 countries)	epeat.net	Bronze/Silver/Gold; covers displays, computers, servers, phones, TVs; ISO 14024 compliant
EPEAT Climate+	Climate-focused electronics	Global Electronics Council (GEC)	Global	epeat.net	Focused on products with limited climate change impact
ENERGY STAR (Products)	Energy-efficient products	US EPA / US DOE	US (recognized globally)	energystar.gov	Displays, AV equipment, signage; required for US federal procurement
TCO Certified	Sustainable ICT products	TCO Development	Global (Sweden origin)	tcocertified.com	Displays, notebooks, projectors, headsets, network equipment, servers
EU Ecolabel	Environmental excellence products	European Commission	EU / EEA	ec.europa.eu/ecolabel	Flower label; electronics and display categories
Blue Angel (Blauer Engel)	Environmental product label	German Federal Environment Agency	Germany / Global recognition	blauer-engel.de	Since 1978; computers, displays, projectors
Nordic Swan Ecolabel	Nordic environmental certification	Nordic Council of Ministers	Nordics (Scandinavia)	nordic-swan-ecolabel.org	Electronics, IT equipment; lifecycle approach
Environmental Product Declaration (EPD)	Transparent environmental impact data	Various program operators (EPD International, UL, etc.)	Global	environdec.com	ISO 14025 Type III declaration; increasingly requested in AV procurement
GreenGuard / GreenGuard Gold	Low chemical emissions (indoor air)	UL Solutions	Global (US origin)	ul.com/resources/greenguard-certification	Building products and electronics; contributes to LEED/WELL credits

SECTION 5

5.2 PRO AV & LIVE EVENTS INDUSTRY INITIATIVES

INITIATIVE / STANDARD	FOCUS AREA	ISSUING BODY	REGION	WEBSITE	NOTES
PLASA Sustainability Resources	Entertainment technology sustainability	PLASA (Professional Lighting and Sound Association)	Global (UK origin)	plasa.org	Standards and guidance for entertainment technology
ESTA/ANSI E1 Standards	Entertainment technology standards	ESTA (Entertainment Services and Technology Association)	US / Global	esta.org	ANSI-accredited; E1.67 on sustainability in entertainment
isla (Sustainability for Live Events)	Live event sustainability	isla	Global (UK origin)	isla.org.uk	TRACE carbon measurement tool; training courses
Broadway Green Alliance	Theater industry sustainability	Broadway League / coalition	US	broadwaygreen.com	Best practices for Broadway and theater industry
Green Production Guide	Film/TV sustainability	Producers Guild of America / SMPTE	US / Global	greenproductionguide.com	Carbon calculator and best practices for media production

5.3 ICT & DATA CENTER CERTIFICATIONS

CERTIFICATION /STANDARD	FOCUS AREA	ISSUING BODY	REGION	WEBSITE	NOTES
EU Code of Conduct for Energy Efficiency in Data Centres	Data center energy efficiency	European Commission / JRC	EU (voluntary globally)	e3p.jrc.ec.europa.e	Voluntary best practices; participant and endorser categories
CEEDA (Certified Energy Efficient Datacenter Award)	Data center energy efficiency	BCS / CNet Training	Global (UK origin)	cnet-training.com	Tiered assessment framework for data centers
Green Grid PUE/ WUE/CUE Metrics	Data center efficiency metrics	The Green Grid	Global	thegreengrid.org	Power/Water/Carbon Usage Effectiveness metrics
ITU-T L.1400 series	ICT environmental impact	International Telecommunication Union (ITU)	Global	itu.int	GHG methodology for ICT sector; circular economy
ETSI EN 303 470 (Energy Efficiency of Wireless Access)	Network equipment efficiency	ETSI	EU / Global	etsi.org	European standard for telecom equipment energy efficiency
GHG Protocol ICT Sector Guidance	ICT-specific GHG accounting	WRI / WBCSD	Global	ghgprotocol.org	Guidance for ICT sector Scope 1/2/3 emissions

APPENDIX

Key Organizations & Contact Information

The following organizations administer the certifications referenced in this guide. Contact them directly for current pricing, eligibility, and enrollment information.

ORGANIZATION	LOCATION	WEBSITE	NOTES
USGBC / GBCI	Washington, DC, USA	usgbc.org / gbci.org	LEED, WELL AP, SITES AP, TRUE, SEA/SEP credentials
International WELL Building Institute (IWBI)	New York, NY, USA	wellcertified.com	WELL Building Standard and WELL AP
BRE Global	Watford, UK	bregroup.com	BREEAM certification and assessor accreditation
DGNB (German Sustainable Building Council)	Stuttgart, Germany	dgnb.de/en	DGNB system certification
International Organization for Standardization (ISO)	Geneva, Switzerland	iso.org	ISO 14001, 50001, 20121, 14064, and all ISO standards
Global Electronics Council (GEC)	Portland, OR, USA	epeat.net	EPEAT registry and EPEAT Climate+
US EPA / ENERGY STAR	Washington, DC, USA	energystar.gov	ENERGY STAR product and building certification
TCO Development	Stockholm, Sweden	tcocertified.com	TCO Certified products
B Lab	Wayne, PA, USA	bcorporation.net	B Corp certification
Science Based Targets initiative (SBTi)	Global (CDP/UNGC/WRI/WWF)	sciencebasedtargets.org	Science-based target validation
CDP	London, UK	cdp.net	Environmental disclosure system
Global Reporting Initiative (GRI)	Amsterdam, Netherlands	globalreporting.org	GRI Sustainability Reporting Standards
EcoVadis	Paris, France	ecovadis.com	Supply chain sustainability ratings
Events Industry Council (EIC)	Washington, DC, USA	eventscouncil.org	EIC Sustainable Event Standards; SEPC
A Greener Future (AGF)	London, UK	agreenerfuture.com	Greener Festival/Event certification
isla	London, UK	isla.org.uk	Live events sustainability; TRACE tool

APPENDIX

ORGANIZATION	LOCATION	WEBSITE	NOTES
ISSP (International Society of Sustainability Professionals)	Portland, OR, USA	sustainabilityprofessionals.org	SEA/SEP study materials and education
Association of Energy Engineers (AEE)	Atlanta, GA, USA	aeecenter.org	CEM, REP, CSDP credentials
Institute for Sustainable Infrastructure (ISI)	Washington, DC, USA	sustainableinfrastructure.org	Envision framework and ENV SP credential
Center for Active Design (CfAD)	New York, NY, USA	fitwel.org	Fitwel certification and Fitwel Ambassador
International Living Future Institute (ILFI)	Seattle, WA, USA	living-future.org	Living Building Challenge; Zero Energy/Zero Carbon
PLASA	Eastbourne, UK	plasa.org	Entertainment technology standards and sustainability
ESTA	New York, NY, USA	esta.org	ANSI-accredited entertainment technology standards
SAVe (Sustainability in AV)	Global consortium	saveav.com	Industry collaboration for sustainable AV
